Seen Unseen Century Stories Pacific:

Transpacific Visions Yasuko Hassall Kobayashi, Shinnosuke Takahashi, 2021-09-30 This book argues that transpacific history cannot be comprehended without including vertical connections namely those between the southern hemisphere and the northern hemisphere It explores such connections by uncovering small histories of ordinary people's attempts at ventures which they undertake by means of uneven unlevel and multidirectional mobilities In this way this book goes beyond the usual notion of transpacific history as a matter of Northern Hemisphere centric connections between the United States and Asian countries and enables us to imagine a transpacific space as a more dynamic and multi faceted world of human mobilities and connections In this book both eminent and burgeoning historians uncover the stories of little known myriad encounters in various parts of the Asia Pacific region By exploring cases whose actors include soldiers missionaries colonial administrators journalists essayists and artists the book highlights the significance of vertical perspectives in understanding complex histories of the region
