Self-compassion: Stop Beating Yourself Up and Leave Insecurity Behind Kristin Neff, 2011 Compassie voor beginners Thupten Jinpa, 2016-03-15 Inspirerend en toegankelijk Thupten Jinpa leert je hoe je je compassiespier traint aan de hand van zijn eigen levensverhalen en praktische dagelijkse oefeningen Compassie houdt in dat we medeleven hebben met anderen en met onszelf Ieder mens wordt geboren met een vermogen tot compassie Maar we zijn bang om gebruikt te worden door anderen of om een slappeling te worden Daarom ligt het voor de westerse mens niet voor de hand om zijn compassie spier te trainen Wetenschap psychologische inzichten en het levensverhaal van de auteur wijzen echter uit als je deze spier traint ervaar je minder stress en verbetert je gezondheid Compassie loont dus en het is de volgende stap na mindfulness Thupten Jinpa was monnik maar is inmiddels getrouwd en heeft 2 dochters In de VS ontwikkelde hij samen met de Stanford Universiteit een veelgeprezen compassie training Hij was bijna 30 jaar de belangrijkste vertaler van de Dalai Lama Compassie lijkt vaak ver weg en moeilijk Thupten Jinpa maakt het eenvoudig praktisch en inspirerend Zowel persoonlijk als in de samenleving Een echte aanrader Wibowo auteur van o.a. Mindful werken *Anxiety + Depression* Margaret Wehrenberg, 2014-05-19 Tips and techniques for managing a prevalent co existing condition Anxiety and depression are two of the most common complaints in therapy and it's not unusual for clients to suffer from both simultaneously But spotting the co occurrence is not easy When one symptom picture dominates diagnosis and treatment are pretty straightforward But consider how fuzzy the clinical picture can become Depression can rob an anxious client of the energy needed to control her symptoms acute anxiety can make anyone depressed and exhausted and what happens when

anxiety masquerades as depression or vice versa What are the signs that this is happening It s hard enough to treat these two disorders when they exist on their own and it gets even harder when they present together In her customary practical style and conversational tone Margaret Wehrenberg unravels the complexity of this common comorbidity teaching therapists exactly how to tackle it Beginning with Where to Start she walks readers through a variety of common tricks for distinguishing between anxiety and depression and provides an assessment plan for determining which set of symptoms the client is most ready to work on The book goes on to highlight seven common types of comorbid clients who can be arrayed on a spectrum from the low energy depressed on one end to the high anxiety anxious on the other and everything in between including the hopeless ruminator the quiet avoider and the high energy anxious and depressed client By organizing the book around these typical client profiles readers are given a more realistic picture of what comorbid anxiety and depression look like and how to best help their clients Wondering where depression ends and anxiety begins or vice versa and how you can most effectively help your clients when they re struggling with both The key clinical strategies offered in this book provide a practical roadmap forward helping therapists and their clients to better understand the symptom picture manage its effects and heal

End Emotional Eating Jennifer Taitz,2012-07-01 If

you eat to help manage your emotions you may have discovered that it doesn't work. Once you're done eating you might even feel worse. Eating can all too easily become a strategy for coping with depression, anxiety, boredom, stress, and anger, and a reliable reward when it's time to celebrate. If you are ready to experience emotions without consuming them or being consumed by them, the mindfulness, acceptance, and dialectical behavior therapy (DBT) skills in *End Emotional Eating* can help. This book does not focus on what or how to eat; rather, these scientifically supported skills will teach you how to manage emotions and urges gracefully, live in the present moment, learn from your feelings, and cope with distress skillfully. *The Creating Copowerment® Workbook* Lani Kwon MA, 2013-08-20. The *Creating CoPOWERment Workbook* Embracing the Power of Positive Psychology: Healing Stories and Explorations to Create the Life You Want encourages readers to explore choices, visualize outcomes, and set priorities. This workbook is informal and informative, never preachy. It provides readers with the shared true life stories of past *Creating CoPOWERment* clients and body/mind/spirit practitioners, balanced with the scientific results of positive psychology studies conducted over the past thirty years or more in the areas of optimism, self-compassion, goal setting, meaningful work, and success. Thought-provoking hands-on explorations at the end of each chapter support readers in discovering their motivations and ideals in planning step-by-step changes for better living. Discover what motivates you to use your strengths to create the life you want. Learn how your unexamined thoughts and beliefs hold you back from achieving your goals. Transform obstacles into lessons and markers of success. Align with like-minded, hearted-souled allies, organizations, and communities. Find out what your life purpose really is and step-by-step how to get there. *Creating CoPOWERment* is a phrase the author coined to describe the empowering interactions that take place when people who are going through life transitions come together in groups or partner one-on-one. People who have participated in *Creating CoPOWERment* have reported that they are able to identify better life options when they have an opportunity to share their experiences, beliefs, and resources with others. *Meaning-Centered Psychotherapy in the Cancer Setting* William Breitbart, 2017. *Meaning-Centered Psychotherapy in the Cancer Setting* provides a theoretical context for Meaning-Centered Psychotherapy (MCP), a non-pharmacologic intervention which has been shown to enhance meaning and spiritual well-being, increase hope, improve quality of life, and significantly decrease depression, anxiety, desire for hastened death, and symptom burden/distress in the cancer setting. Based on the work of Viktor Frankl and his concept of logotherapy, MCP is an innovative intervention for clinicians practicing in fields of psycho-oncology, palliative care, bereavement, and cancer survivorship. This volume supplements two treatment manuals: *Meaning-Centered Group Psychotherapy (MCGP) for Patients with Advanced Cancer* and *Individual Meaning-Centered Psychotherapy (IMCP) for Patients with Advanced Cancer* by Dr. Breitbart, which offer a step-wise outline to conducting a specific set of therapy sessions. In addition to providing a theoretical background on the MCP techniques provided in the treatment manuals, this volume contains chapters on adapting MCP for different cancer-related populations and for different purposes and clinical problems, including interventions for cancer.
