One Equall Light An Anthology Of The Writings Of John Donne:

Writing and Religion in England, 1558-1689 Anthony W. Johnson, 2016-02-17 The fruit of intensive collaboration among leading international specialists on the literature religion and culture of early modern England this volume examines the relationship between writing and religion in England from 1558 the year of the Elizabethan Settlement up until the Act of Toleration of 1689 Throughout these studies religious writing is broadly taken as being communicational in the etymological sense that is as a medium which played a significant role in the creation or consolidation of communities Some texts shaped or reinforced one particular kind of religious identity whereas others fostered communities which cut across the religious borderlines which prevailed in other areas of social interaction For a number of the scholars writing here such communal differences correlate with different ways of drawing on the resources of cultural memory The denominational spectrum covered ranges from several varieties of Dissent through via media Anglicanism to Laudianism and Roman Catholicism and there are also glances towards heresy and the mid seventeenth century's new atheism With respect to the range of different genres examined the volume spans the gamut from poetry fictional prose drama court masque sermons devotional works theological treatises confessions of faith church constitutions tracts and letters to history writing and translation Arranged in roughly chronological order *Writing and Religion in England 1558 1689* presents chapters which explore religious writing within the wider contexts of culture ideas attitudes and law as well as studies which concentrate more on the texts and readerships of particular writers Several contributors embrace an inter arts orientation relating writing to liturgical ceremony painting music and architecture while others opt for a stronger sociological slant explicitly emphasizing the role of women writers and of writers from different sub cultural backgrounds

The Oxford Handbook of Anglican Studies

Mark David Chapman, Sathianathan Clarke, Martyn Percy, 2016 The Anglican Communion is the third largest Christian denomination and claims a membership of some 80 million members in about 164 countries Given that there are only around two hundred countries in the world this makes the churches of the Anglican Communion the most geographically widespread denomination after Roman Catholicism The 44 essays in this volume embrace a wide range of academic disciplines theological historical demography and geography and different aspects of culture and ethics They are united in their discussion of what is effectively a new inter disciplinary subject which we have termed Anglican Studies At the core of this volume is the phenomenon of Anglicanism as this is expressed in different places and in a variety of ways across the world This Handbook covers a far broader set of topics from a wider range of perspectives than has been hitherto attempted in Anglican Studies At the same time it doesn't impose a particular theological or historical agenda The contributions are drawn from across the spectrum of theological views and opinions It shows that the unsettled nature of the polity is part of its own rich history and many will see this as a somewhat lustrous tradition In its comprehensive coverage this volume is a valuable contribution to Anglican Studies and helps formulate a discipline that might perhaps promote dialogue and discussion across

the Anglican world **Beyond Believing: Be-Living in a Wonderful World Gone Wonky** Brian Shoemaker, 2020-03-19

In a world gone wonky people are looking for a system of belief that can offer them hope This book offers the reader more than just believing in something It is about BE Living through cultivating a deeper awareness of the presence of God in one's everyday life **A Concise History of the Book of Common Prayer** Gary Nicolosi, 2021-08-02 England's Protestant

Reformation was a bloody and violent affair as various factions in the church and nation battled over the future of Christianity Between 1556 and 1645 two Archbishops of Canterbury and a King of England were executed At the heart of it all was a book crafted by Archbishop Thomas Cranmer The Book of Common Prayer guided and some would say goaded a religious shift entirely unique in Christendom The BCP charted a controversial middle road between Catholic heritage and Protestant reform It was a road filled with passions colorful personalities and life and death struggles Suitable for church forums or private study Concise History is both challenging and accessible Each lesson includes questions to guide group discussion and to provoke serious personal reflection Clergy lay and students of Anglican history and theology will find in this work a dramatic narrative and an invitation to deepen their faith *Thinking about Prayer* Owen F.

Cummings, 2009-08-01 Many people think of prayer and worship in terms that are too narrow Sometimes they also entertain presuppositions about prayer and worship that need to be expanded and critiqued and challenged to make them more mature and informed This book seeks to address these issues It is an invitation to engage with prayer and worship in ways that enlarge our capacity to think about address and encounter God through liturgy and theology the arts and poetry as well as basic critical thinking **The Gospel in the Dock** Bryan M. Christman, 2021-08-10 C S Lewis famously penned the phrase

God in the Dock and proposed that there was a great divide between ancient and modern humans in that our ancestors would have rightly seen themselves in the dock before God while we moderns have placed God there before us But what if what God's love most desires for us the gospel or good news of the only way of life for humanity has been in the dock before us from the time of Adam and Eve And what if it is also the case that the gospel is often in the dock as though it is not good even for the church This book builds upon and expands the life and death stakes Lewis proposed by demonstrating that the gospel way of faith itself has been placed in the dock by us and in many ways ruined our relationships with God with our own selves with one another and even with the natural world itself which we are meant to steward for its good In these pages the reader will discover why the gospel that requires faith is good news but why we so tragically default to our divisive and self-destructive ways Visualising a Sacred City Ben Quash, Aaron Rosen, Chloe Reddaway, 2016-11-25 William Blake famously

imagined Jerusalem builded here in London But Blake was not the first or the last to visualise a shimmering new metropolis on the banks of the River Thames For example the Romans erected a temple to Mithras in their ancient city of Londinium medieval Londoners created Temple Church in memory of the Holy Sepulchre in which Jesus was buried and Christopher Wren reshaped the skyline of the entire city with his visionary dome and spires after the Great Fire of London in 1666 In the

modern period the fabric of London has been rewoven in the image of its many immigrants from the Caribbean South Asia Eastern Europe and elsewhere While previous books have examined literary depictions of the city this is the first examination of the religious imaginary of the metropolis through the prism of the visual arts Adopting a broad multicultural and multi faith perspective and making space for practitioners as well as scholars its topics range from ancient archaeological remains and Victorian murals and cemeteries to contemporary documentaries and political cartoons *For the Parish* Andrew Davison, 2014-04-15 Fresh Expressions of Church are most significant development in the Church of England Parishes are the mainstay of the inherited church The authors demonstrate that the traditions of the parish church represent ways in which time space community are ordered in relation to God and the gospel The Living Church ,1951 *Sobornost* ,2004
