## **Online Advanced Issues International European Tax:**

**Advanced Issues in International and European Tax Law** Christiana HJI Panayi, 2015-12-03 This book examines recent developments and high profile debates that have arisen in the field of international tax law and European tax law Topics such as international tax avoidance corporate social responsibility good governance in tax matters harmful tax competition state aid tax treaty abuse and the financial transaction tax are considered The OECD G20 project on Base Erosion and Profit Shifting BEPS features prominently in the book The interaction with the European Union's Action Plan to strengthen the fight against tax fraud and tax evasion is also considered Particular attention is paid to specific BEPS deliverables exploring them through the prism of European Union law Can the two approaches be aligned or are there inherent conflicts between them The book also explores whether when it comes to aggressive tax planning there are internal conflicts between the established case law of the Court of Justice and the emerging policy of the European institutions By so doing it offers a review of issues which are of constitutional importance to the European Union Finally the book reflects on the future of international and European tax law in the post BEPS world     Advanced Topics in Revenue Law John Tiley, Glen Loutzenhiser, 2013-01-07 The last several years have seen fundamental changes to the UK tax system Nearly the entirety of the UK corporation tax and international tax rules have been rewritten by three new statutes the Corporation Tax Acts 2009 and 2010 and the Taxation International and Other Provisions Act 2010 The UK has also implemented major new policies affecting the taxation of pensions charities savings vehicles non doms and the foreign profits of UK companies In addition European Union law and especially the case law of the Court of Justice of the European Union has had an increasingly important impact on UK corporation tax and international tax law in particular This new book on advanced topics in UK tax law is derived from material previously found in John Tiley's major text on Revenue Law that has been expanded and comprehensively updated to take account of these developments The book deals with Corporation Tax International and European Tax Savings and Charities in a manageable and portable volume for law students and practitioners It complements the material on UK Income Tax Capital Gains Tax and Inheritance Tax found in Revenue Law 7th edition Unlike other tax law books this text explains the new rules found in CTA 2009 CTA 2010 and TIOPA 2010 in light of its legislative predecessors The book contains extensive references to the new legislation and also to the former enactments in ICTA 1988 and elsewhere Those familiar with the old law but wanting to find their way round the new will find this work particularly valuable The book is designed for law students taking advanced tax courses in the final year of their law degree course and for graduate students but is intended to be of interest to all who enjoy tax law Its purpose is not only to provide an account of the rules but to include citation of the relevant literature from legal periodicals and some discussion of or reference to the background material in terms of policy history or other countries tax systems     Tax, Inequality, and Human Rights Philip Alston, Nikki Reisch, 2019-04-11 In Tax Inequality and Human Rights experts in human rights law and in tax law debate the linkages

between the two fields and highlight how each can help to tackle rapidly growing inequality in the economic social and political realms Against a backdrop of systemic corporate tax avoidance widespread use of tax havens persistent pressures to embrace austerity policies and growing gaps between the rich and poor this book encourages readers to understand fiscal policy as human rights policy and thus as having profound consequences for the well being of citizens around the world Prominent scholars and practitioners examine how the foundational principles of tax law and human rights law intersect and diverge discuss the cross border nature and human rights impacts of abusive practices like tax avoidance and evasion question the reluctance of states to bring transparency and accountability to tax policies and practices highlight the responsibility of private sector actors for shaping and misshaping tax laws and critically evaluate domestic tax rules through the lens of equality and nondiscrimination The contributing authors also explore how international human rights obligations should influence the framework for both domestic and international tax reforms They address what human rights law requires of state tax policies and how tax laws and loopholes affect the enjoyment of human rights by people outside a state s borders Because tax and human rights both turn on the relationship between the individual and the state neo liberalism s erosion of the social contract threatens to undermine them both

**Tax Justice and Tax Law** Dominic de Cogan, Peter Harris, 2020-11-12 Most people would agree that tax systems ought to be just and perhaps a great deal more just than they are at present What is more difficult is to agree on what tax justice is This book considers a range of different approaches to and ideas about the nature of tax justice and covers areas such as imbalances in international tax arrangements that deprive developing countries of revenues from natural resources and allow wealthy taxpayers to use tax havens protests against governments and large business attempts to influence policy through more technical means such as the OECD s Base Erosion and Profits Shifting project interpersonal matters such as the ways in which tax systems disadvantage women and minorities the application of wider philosophical or economic theories to tax

systems The purpose of the book is not to iron out these underlying differences into a grand theory but rather to gain a more precise understanding of how and why we disagree about tax justice In doing so the editors are assisted by a stellar cast of contributors from four continents with a wide variety of views and experiences but a common interest in this central question of how to agree and disagree about tax justice This is of course not only an intellectual exercise but also a necessary precursor to achieving real world change
