One Million Things Human Body:

The Essential Spontaneous Fulfillment of Desire Deepak Chopra, M.D., 2007-10-30 As elegant as his bestselling *How to Know God* and as practical as his phenomenal *The Seven Spiritual Laws of Success* this groundbreaking new book from Deepak Chopra contains a dramatic premise Not only are everyday coincidences meaningful they actually provide us with glimpses of the field of infinite possibilities that lies at the heart of all things By gaining access to this wellspring of creation we can literally rewrite our destinies in any way we wish From this realm of pure potential we are connected to everything that exists and everything that is yet to come Coincidences can then be recognized as containing precious clues about particular facets of our lives that require our attention As you become more aware of coincidences and their meanings you begin to connect more and more with the underlying field of infinite possibilities This is when the magic begins This is when you achieve the spontaneous fulfillment of desire At a time when world events may leave us feeling especially insignificant and vulnerable Deepak Chopra restores our awareness of the awesome powers within us And through specific principles and exercises he provides the tools with which to create the magnificent miraculous life that is our birthright Synchrodestiny Deepak Chopra, 2008-12-16 Dr Deepak Chopra the bestselling pioneer in mind body medicine shows how coincidences are messages about the miraculous potential of each moment He reveals how through understanding the forces that shape coincidences you can learn to live at a deeper level and access the flow of synchronicity that lies at the heart of existence You can start to transform your life through full contact living in which all things will be within your reach Discover That there is no such thing as a meaningless coincidence The seven principles of synchrodestiny Practical techniques for applying those principles The seeds of a perfect destiny lie within you This remarkable book will show you how to release their potential and live a life more wondrous than dreams Biohacker's Magazine Issue 19 , At the end of our lives do we not all have the will to be able to say that we fully lived our life to the extent of our abilities In other words deep down I believe we all have the desire to leave this the world knowing that although we make mistakes and had some pitfalls we did our absolute best to be the highest level of the person we were made to be The reason we all have this desire is not a selfish one but in fact an unselfish one This is because when we are optimizing ourselves to function at our premium versions of ourselves we are providing a stronger more efficient individual to the benefit of the community as a whole Then the question arises how do we know who we are at our maximum level and better yet how do we reach this utmost level of attainment and fulfillment The answer can be summed up to one word Wisdom Wisdom is our best friend It guides us and protects us It strengthens us and nourishes us There are many other words for this Discipline Knowledge etc but Wisdom is perhaps the word with the most meaning When humans make it their mission to grow towards something higher something more transcendent than their baseline selves they are undertaking the process of acquiring wisdom Wisdom can be sought in many ways books orators experiences Biohacking in a most fundamental sense is for all intents and purposes an avenue to acquiring wisdom about

ourselves both subjectively and objectively and taking this knowledge to optimize our entire self soul mind body for purpose of healthy growth and prosperity In our forever increasingly busy world full of languishing and slothful distractions we must continually fight back the urge to give more of our time to these easy mind numbing diversions and instead see the present and long term benefits of allocating our time towards to pursuit of wisdom and optimization essentially the pursuit of happiness Prioritize your biohacks and self growth habits in your life and continue leveling up
