Legal Responses to Cyberterrorism Xingxing Wei, 2025-12-08 This book provides an in depth comparative study of legal responses to cyberterrorism in China and the UK to establish whether the relationship between legal systems and legal responses is necessary or contingent in the case of counter cyberterrorism The work maps out and compares the basic distinctive characteristics of the legal systems in the two countries which are characterised in terms of a contrast between rule by law and rule of law and basic criminal principles It critically and comprehensively examines the basic principles of the legal responses to the perceived threats of cyberterrorism and identifies through comparative analysis any convergence as well as divergence The study seeks to develop an understanding of what is necessary and contingent in the case of the relationship between legal systems and legal responses and considers what else might account for patterns of similarity as well as difference The book presents a distinct and original contribution to socio legal studies generally as well as to criminal justice and criminology in terms of the relationship between legal systems and legal responses to transnational problems such as cyberterrorism It will be a valuable resource for academics researchers and policy makers working in these areas

Internet Service Provider Liability for Copyright and Trade Mark Infringement Zoi Krokida, 2022-06-16 This book critically evaluates the EU regulatory framework for the liability of host Internet Service Providers ISPs for copyright and trade mark infringements and provides a cluster of novel recommendations for its improvement The book recommends the imposition of a duty of care to host ISPs to curb the dissemination of unauthorised works and counterfeit goods the ascription of a transparency obligation to host ISPs towards their users and the establishment of a supervisory authority for host ISPs Host ISPs have facilitated the dissemination of content amongst users and the purchase of goods online enabling copyright holders and brand owners to attract a greater audience for their works and goods However their services have attracted a high number of copyright and trade mark violations too Neither Article 14 of the e Commerce Directive nor Article 17 of the Copyright in the Digital Single Market Directive provide a solid response to the issue of host ISPs liability This book is a valuable resource for researchers in IT and

IP law and offers a new perspective for resolving online IP disputes The Conflict in Syria and the Failure of International Law to Protect People Globally Jeremy Julian Sarkin, 2021-11-28 This book explores through the lens of the conflict in Syria why international law and the United Nations have failed to halt conflict and massive human rights violations in many places around the world which has allowed tens of millions of people to be killed and hundreds of millions more to be harmed The work presents a critical socio legal analysis of the failures of international law and the United Nations UN to deal with mass atrocities and conflict It argues that international law in the way it is set up and operates falls short in dealing with these issues in many respects The argument is that international law is state centred rather than victim friendly is to some extent outdated is vague and often difficult to understand and therefore at times hard to apply While various accountability processes have come to the fore recently processes do not exist to assist individual victims while the conflict occurs or the abuses are being perpetrated The book focuses on the problems of international law and the UN and in the context of the many enforced disappearances and arbitrary detentions in Syria why nothing has been done to deal with a rogue state that has regularly violated international law It examines why the responsibility to protect R2P has not been applied and why it ought to be used generally and in Syria It uses the Syrian context to evaluate the weaknesses of the system and why reform is needed It examines the UN institutional mechanisms the role they play and why a civilian protection system is needed It examines what mechanism ought to be set up to deal with the possible one million people who have been disappeared and detained in Syria The book will be a valuable resource for students academics and policy makers working in the areas of public international law international human rights law political science and peace and security studies *Preventive Justice and the Power of Policy Transfer* J. Ogg, 2015-05-25 As policy makers look first and easily for existing policy solutions which could be adapted from elsewhere policy transfer becomes increasingly central to policy development This book explores whether policy transfer in everyday policy making may be unintentionally creating a system of preventive justice
