Contemporary Office Handbook P M Saleem, 2012-12-04 Contemporary Office Handbook emphasizes the critical skills traits and knowledge required to effectively face the emerging workplace realities It is designed to guide you the reader toward success Whether you are a new professional applying for your very first job or a seasoned manager there is information in this handbook to help you The structure of the content is clear making it easy to find what you need quickly And the content is thoroughly researched with excellent citations for those who want to dig deeper From the basic skills to the most advanced thinking on how to be a leader **Principles of Macroeconomics** Howard J. Sherman, Michael A. Meeropol, 2015-03-10 Principles of Macroeconomics by Howard J Sherman and Michael A Meeropol differs from other texts in that this book stresses far more the inherent instability of the macro economy The details of the business cycle come early and are integrated throughout the core of usual macro topics C I G X The book puts inflation into its proper perspective by recognising that unemployment is the much greater threat to the economic well being of the vast majority of the people Instead unemployment and its human toll are given far greater emphasis than other texts The Keynesian model is fully developed so is the statistical analysis of Wesley Mitchell The neoclassical model is covered in both its historical evolution and in its implications for current policy debates Finally there is strong coverage of the Euro zone crisis and its linkages to the United States Forthcoming Books Rose Arny, 2002-04 **Principles of Economics Asia-Pacific Edition with Online Study Tools 12 Months** Joshua Gans, Robin Stonecash, Martin Byford, Gregory Mankiw, Stephen King, Ph.D., Jan Libich, 2017-10-26 Principles of Economics 7th edition combines microeconomics and macroeconomics into one volume for

students who take a full year's course. The latest edition of this text continues to focus on important concepts and analyses necessary for students in an introductory economics course. In keeping with the authors' philosophy of showing students the power of economic tools and the importance of economic ideas, this edition pays careful attention to regional and global policies and economic issues such as climate change and resource taxation, the impacts of the ongoing global financial crisis, inflation, unemployment, interest rates, monetary and fiscal policy. *The Airline Profit Cycle* Eva-Maria Cronrath, 2017-07-06

The airline industry has generally followed a growth trend since its inception, but the industry's financial situation is not as healthy as rising passenger numbers might suggest. This book addresses the question of why airline profits are cyclical and examines the causes and dynamics that determine the profit cycle's shape. *Teaching the History of Economic Thought* Daniela Tavasci, Luigi Ventimiglia, 2018-04-28

Stemming from the idea that economics is a social science that tends to forget its own history, this refreshing book reflects on the role of teaching with historical perspectives. It offers novel ways of integrating the history of economics into the curriculum, both in history of economic thought modules and in other sub-disciplines. Coming from a wide diversity of experiences, the chapters share the idea that studying the history of thought exposes students to pluralism and is therefore an essential pedagogical tool.
