Principles of Intellectual Property Law Gary Myers, 2013 Myers Principles of Intellectual Property Law provides a comprehensive survey of the entire field of intellectual property. It is designed to be reader friendly, up to date, and comprehensive and can be used in survey and specialized intellectual property courses and as an introduction or refresher for anyone interested in the field. Topics include Copyrights, Patents, Trademarks, Trade secrets, Unfair competition, The right of publicity, And more. The Protection of Geographical Indications in China Xinzhe Song, 2021-11-23 For some time now there has been conflict concerning the role in the global marketplace of certain agricultural or handcrafted products of specific geographical origin, whether they should come under trademark law as favoured by common law countries such as the United States or under the geographical indications GI system developed in France and subsequently promoted by the European Union EU. At this moment China is in the eye of the storm. Taking fully into account the legislative and judicial gaps in China's compromised embrace of the GI concept, this book shows how the Chinese case brings to prominence fundamental issues relating to the functional dissimilarity between trademarks and GIs, the treatment of the terroir concept, the role of GIs in rural development and the challenges of adopting the French and European model in other countries, especially in East Asia. Providing detailed information on how GIs are registered, protected and managed in China, France and the EU, the book includes such practical analysis as the following comparison between the Chinese and European GI systems to highlight differences in essential elements for GI registration and protection, mistakes and errors arising from forcing the GI function into trademark law, the increasingly larger scope of EU GI protection, protection of collective marks containing GIs and the extension of GI protection to handicrafts, who is responsible for the protection of each registered name and who can sue for infringement and legislative options for future GI protection in China. Recognizing not only that GIs protect consumers against fraud and producers against unfair competition but also that the goals include the preservation of rural development, cultural heritage and traditional knowledge as well as environmental and ecological protection, this book provides a comprehensive reference on legal tools available for policymakers, legal practitioners, researchers and local producers concerned with GI or trademark issues in China, France or the EU. It will prove greatly helpful to corporate lawyers filing international registration applications and taking legal action. It will also be of inestimable value to officials in a variety of countries that are considering developing or improving systems to enhance the value of terroir products and to academics interested in intellectual property law, trademark law, agriculture policy, GI legislation or World Trade Organization (WTO) rules.

Principles of Tort Law Marshall S. Shapo, 2003 Clear and concise summary on the rules courts use to solve questions. To enhance understanding, this text explains the reasoning and policies underlying the rules. Professor Shapo selects colorful examples from an enormous variety of cases he has studied and relates the principles of law to understandable real life.

situations **International Business Transactions** Ralph Haughwout Folsom, 2009 This is a special break out edition adapted from the authors widely used International Business Transactions A Problem Oriented Coursebook now in its 10th edition 2009 The purpose of this volume is to facilitate a focused study of the law of international trade and economic relations After a brief introduction to the conduct of business in the world community the book uses hypothetical problems to present some of the most typical and important issues arising out of international trade and economic relations in order to make the purpose and relevance of the readings clear The primary focus is on lawyers public and private as problem solvers
