Anderson,2024-05-31 In *Marx at the Margins* Kevin Anderson uncovers a variety of extensive but neglected texts by Marx that cast what we thought we knew about his work in a startlingly different light Analyzing a variety of Marx's writings including journalistic work written for the New York Tribune Anderson presents us with a Marx quite at odds with conventional interpretations Rather than providing us with an account of Marx as an exclusively class based thinker Anderson here offers a portrait of Marx for the twenty first century a global theorist whose social critique was sensitive to the varieties of human social and historical development including not just class but nationalism race and ethnicity as well Through highly informed readings of work ranging from Marx's unpublished 1879-82 notebooks to his passionate writings about the antislavery cause in the United States this volume delivers a groundbreaking and canon changing vision of Karl Marx that is sure to provoke lively debate in Marxist scholarship and beyond For this expanded edition Anderson has written a new preface that discusses the additional 1879-82 notebook material as well as the influence of the Russian American philosopher Raya Dunayevskaya on his thinking **Maurice Blondel, Social Catholicism, and Action Française** Peter J. Bernardi,2009 This work casts light on contemporary arguments over social Catholicism and the believer's role in society by illuminating a similar dispute among French Catholics during the Modernist Crisis 1909-1914 **Marx and Singularity** Luca Basso,2012-11-23 In this work Luca Basso analyses how the development of Marx's thought from the early writings to the Grundrisse can be understood as a search for the realisation of workers singularities **The Theological Origins of Liberalism** Ismail Kurun,2016-07-26 This eye opening book offers a critical survey of the true origins of liberalism It challenges the widely held belief among social scientists that liberalism was developed in opposition to Christianity Beginning with the Protestant Reformation it illustrates how Christian thinkers reinterpreted Christianity and used a set of indemonstrable biblical presuppositions from their reinterpretations to develop the first liberal ideas starting a process that culminates in the birth of the first liberal political theory in the writings of a devout Christian philosopher John Locke It explains how the Protestant Reformation covenant theology anti trinitarianism and medieval Christian natural law theories formed the foundations of liberalism Thus the central claim of this book is that liberalism is better understood as a radical reinterpretation of Christianity that emerged in the post Reformation and early modern period As a logical consequence of revealing the hitherto generally neglected roots of liberalism it eventually proposes that a legally pluralist liberal political theory is the best way to maintain human dignity and peace in multi religious societies of today's globalized world **Index to Canadian Legal Periodical Literature** ,2001 **Les Livres disponibles** ,2003 La liste exhaustive des ouvrages disponibles publiés en langue française dans le monde La liste des auteurs et la liste des collections de langue française

The Road to Social Europe Jean-Claude Barbier, 2013 In the wake of the Greek and Irish crises and at a moment when solidarity between states is hotly debated on a daily basis at EU level it is important to understand how solidarity can happen at all The Road to Social Europe reviews the development of political cultural processes since the nineteenth century showing how social protection and social justice have gradually become interwoven with systems of social protection or welfare states Grounded on extensive empirical research conducted in many EU countries and in the European Commission's administration over twenty years the book provides a cultural analysis of welfare systems in Europe It also presents an original enquiry into the importance of languages for politics in Europe for the politics of welfare and for sociological research It shows how sociological and ethnographic analysis can help in understanding the current and future challenges of European integration that rely unilaterally on functional economics This in depth sociological analysis of European diversity will appeal to a wide audience of students and scholars of sociology political science political economy and European studies

Free Trade and its Enemies in France, 1814-1851 David Todd, 2015-04-30 In the aftermath of the French Revolution advocates of protection against foreign competition prevailed in a fierce controversy over international trade This groundbreaking study is the first to examine this protectionist turn in full Faced with a reaffirmation of mercantile jealousy under the Bourbon Restoration Benjamin Constant Jean Baptiste Say and regional publicists advocated the adoption of the liberty of commerce in order to consolidate the new liberal order But after the Revolution of 1830 a new generation of liberal thinkers endeavoured to reconcile the jealousy of trade with the discourse of commercial society and political liberty New justifications for protection oscillated between an industrialist reinvention of jealousy and an aspiration to self sufficiency as a means of attenuating the rise of urban pauperism A strident denunciation of British power and social imbalances served to defuse the internal tensions of the protectionist discourse and facilitated its dissemination across the French political spectrum
