Molecular Biology Problem Solver A Laboratory Guide:

Molecular Biology Problem Solver Alan S. Gerstein, 2004-03-24 Most research in the life sciences involves a core set of molecular based equipment and methods for which there is no shortage of step by step protocols Nonetheless there remains an exceedingly high number of inquiries placed to commercial technical support groups especially regarding problems

Molecular Biology Problem Solver A Laboratory Guide asks the reader to consider crucial questions such as Have you selected the most appropriate research strategy Have you identified the issues critical to your successful application of a technique Are you familiar with the limitations of a given technique When should common procedural rules of thumb not be applied What strategies could you apply to resolve a problem A unique question based format reviews common assumptions and laboratory practices with the aim of offering a firm understanding of how techniques and procedures work as well as how to avoid problems Some major issues explored by the book s expert contributors include Working safely with biological samples and radioactive materials DNA and RNA purification PCR Protein and nucleic acid hybridization Prokaryotic and eukaryotic expression systems Properly using and maintaining laboratory equipment

Protocols used in Molecular Biology Sandeep Singh, Dhiraj Kumar, 2020-01-23 Protocols used in Molecular Biology is a compilation of several examples of molecular biology protocols Each example is presented with a concise introduction materials and chemicals required a step by step procedure and troubleshooting tips Information about the application of the protocol is also provided The techniques included in this book are essential to research in the fields of proteomics genomics cell culture epigenetic modification and structural biology The protocols can also be used by clinical researchers neuroscientists and oncologists for example for medical applications diagnostics therapeutics and multidisciplinary projects
