

AN INTRODUCTION TO THE DIGESTIVE SYSTEM

The Digestive Tract

- Also called the gastrointestinal (GI) tract or alimentary canal
- Is a muscular tube
- Extends from our mouth to the anus
- Passes through the pharynx, esophagus, stomach, and small and large intestines

The digestive system is one of the most clearly defined in the body.

It consists of a long passageway, the digestive tract, and associated glands.

These include the liver and pancreas, which are connected to the main tract by ducts, or tubes, and empty their products, such as enzymes, into the tract.
