Revisioning Transpersonal Theory Jorge N. Ferrer, 2002-01-01 A participatory alternative to the perennialism and experientialism dominant in transpersonal psychology Revisioning Transpersonal Theory Jorge N. Ferrer, 1999 **The Participatory Turn** Jorge N. Ferrer, Jacob H. Sherman, 2008-12-04 Cuts through traditional debates to argue that religious phenomena are cocreated by human cognition and a generative spiritual power *Participation and the Mystery* Jorge N. Ferrer, 2017-04-12 A groundbreaking and hopeful new look at contemporary spirituality transpersonal psychology integral education and religious diversity and pluralism Participation and the Mystery is both an introduction to and expansion of Jorge N Ferrer s groundbreaking work on participatory spirituality which holds that human beings are active cocreators of spiritual phenomena worlds and even ultimates After examining the impact of his work since the publication of *Revisioning Transpersonal Theory* Ferrer discusses the relationship between science and transpersonal psychology the nature of a fully embodied spirituality and the features of integral spiritual practice The book also introduces a participatory philosophy of education and applies it to the academic teaching of mysticism and a novel approach to embodied spiritual inquiry Critically engaging the influential work of Stanislav Grof Ken Wilber and A H Almaas Ferrer concludes with an original solution to the problem of religious pluralism that affirms the ontological richness of religious worlds while avoiding the extremes of perennialism and contextualism offering a hopeful vision for the future of world religion Participation and the Mystery is an invaluable resource to anyone seeking to deepen their understanding of participatory approaches to transpersonal psychology integral and contemplative education contemporary spirituality and religious studies In Participation and the Mystery we are given the opportunity to dive into the engaging provocative and stunningly erudite thought of Jorge N Ferrer arguably one of the premier transpersonal theorists of our time Building on the key essays written after the publication of his seminal work *Revisioning Transpersonal Theory* Ferrer shows us how his compelling and extremely fertile participatory model can be applied with intriguing and rewarding results to multiple highly distinct fields of discourse Read this book if you want your worldview to be both challenged and enriched G William Barnard author of *Living Consciousness The Metaphysical Vision of Henri Bergson* Ferrer is a leading figure in transpersonal psychology His participatory perspective explains both the deep commonalities and the creative diversity of spiritual traditions It provides a way to understand the general phenomenon of spirituality without falling prey to ideological dogmatism or the tendency to privilege one s own spiritual tradition or practice over others Ferrer s work deserves to be widely read Michael Washburn author of *Transpersonal Psychology in Psychoanalytic Perspective* This is an important collection of essays from one of the leading contemporary thinkers in transpersonal studies Ferrer s participatory approach represents the most significant development in transpersonal theory and practice to have emerged this century and this book is the ideal introduction to Ferrer s work It will become required reading for all students of transpersonal psychology as well as for anyone seeking to deepen their

understanding of transformational practice transpersonal education spirituality and religion Michael Daniels author of *Shadow Self Spirit Essays in Transpersonal Psychology* Rich and thought provoking this book ranges widely through Ferrer's reflections on the participatory worldview in relation to psychology education and religion Andrew O Fort Texas Christian University *Ways of Knowing* Chris Clarke, 2013-09-18 The world faces a crisis of meaning The old stories whether the exclusive claims of rival religions or the grand schemes of perennial philosophy seem bankrupt to many The editorial stance of this book is that mysticism and science offer a way forward here but only if they abandon the idol of a single logical synthesis and acknowledge the diversity of different ways of knowing The contributors from disciplines as diverse as music psychology mathematics and religion build a vision that honours diversity while pointing to an implicit unity

Wakefulness Steve Taylor, 2011-09-30 Ken je dat gevoel dat je bezig bent maar dat je eigenlijk slapend rondloopt Dat je kostbare tijd op de automatische piloot doorbrengt Hoe veel van de tijd breng je eigenlijk bewust door ben je 100% in contact met jezelf Volgens Steve Taylor verkeert ons normale bewustzijn in een soort slaaptoestand waaruit we soms ontwaken en vervolgens terecht komen in een veel intensere realiteit We hebben allemaal toegang tot deze intense realiteit door bijvoorbeeld tijd in de natuur door te brengen te mediteren drugs te gebruiken te sporten of door slaaptekort In *Wakefulness* vind je een heldere uitleg over wat het hogere bewustzijn of wakefulness is Aan de hand van dit boek word je een van die mensen voor wie een hoger bewustzijn een normale staat van zijn is
