Revelation A Clearer View:

A Clear View Keith Ogorek, 2012-01-05 Everybody has one and it influences the choices we make everyday What is it A worldview Philosophers have considered the significance of worldview for centuries but it wasn't until recently that Christians began to realize the importance of understanding this concept Much has been written to identify different worldviews but in this book we examine how a person's worldview is formed and the impact it has in key areas of life such as money work sex and education We consider different answers to significant questions such as what happens when you die what is the nature of good and evil and how did the world begin and how will it end to name a few For each question we conclude by offering an answer from a Christian worldview Finally we suggest how understanding these ideas more clearly will help us have a greater influence in our culture For any one interested in becoming better equipped to reach the world around us A Clear View is a must read Revelation John E. Through a Speculum That Shines Elliot R. Wolfson, 2020-06-30 A comprehensive treatment of visionary experience in some of the main texts of Jewish mysticism this book reveals the overwhelmingly visual nature of religious experience in Jewish spirituality from antiquity through the late Middle Ages Using phenomenological and critical historical tools Wolfson examines Jewish mystical texts from late antiquity pre kabbalistic sources from the tenth to the twelfth centuries and twelfth and thirteenth century kabbalistic literature His work demonstrates that the sense of sight assumes an epistemic priority in these writings reflecting and building upon those scriptural passages that affirm the visual nature of revelatory experience Moreover the author reveals an androcentric eroticism in the scopic mentality of Jewish mystics which placed the externalized and representable form the phallus at the center of the visual encounter In the visionary experience as Wolfson describes it imagination serves a primary function transmuting sensory data and rational concepts into symbols of those things beyond sense and reason In this view the experience of a vision is inseparable from the process of interpretation Fundamentally challenging the conventional distinction between experience and exegesis revelation and interpretation Wolfson argues that for the mystics themselves the study of texts occasioned a visual experience of the divine located in the imagination of the mystical interpreter Thus he shows how Jewish mystics preserved the invisible transcendence of God without doing away with the visual dimension of belief
