Relations Brigitta R. Brunner, 2016-10-04 The civic and moral responsibilities of public relations are hotly contested topics While many researchers call for focusing on ethics in public relations they concentrate on ethics in relation to how people do their jobs In actuality emphasis should move beyond professional codes of ethics to include general morality and citizenship Currently as the profession receives greater scrutiny it is important to be aware of the value of public relations in the community This book centers on four areas of public relations conscience in order to examine its role in morality and citizenship civic professionalism corporate social responsibility ethics and public communication This approach will help to answer the question of what is public relations responsibility to the public good *The SAGE Handbook of Public Relations* Robert Lawrence Heath, 2010 Reflecting advances in theory research and application in the discipline since the publication of the Handbook of Public Relations in 2001 this new volume is global in scope and unmatched in its coverage of both academic research and professional best practice It presents major theories in the words of the leading advocates for each theory positions public relations as a positive force to help make society more fully functional and challenges academics and practitioners to identify best practices that can inform the work of those in the profession The Handbook of Communication and Corporate Reputation Craig E. A Stakeholder Approach to Corporate Social Responsibility Dr François Maon, Dr Philip Kotler, Professor Adam Lindgreen, Professor Joëlle Vanhamme, 2012-08-01 Corporate social responsibility has grown into a global phenomenon that encompasses businesses consumers governments and civil society and many organizations have adopted its discourse Yet corporate social responsibility remains an uncertain and poorly defined ambition with few absolutes First the issues that organizations must address can easily be interpreted to include virtually everyone and everything Second with their unique often particular characteristics different stakeholder groups tend to focus only on specific issues that they believe are the most appropriate and relevant in organizations corporate social responsibility programs Thus beliefs about what constitutes a socially responsible and sustainable organization depend on the perspective of the stakeholder Third in any organization the beliefs of organizational members about their organization s social responsibilities vary according to their function and department
