documentary portraiture landscape still life art and global photography this second edition includes two new chapters on snapshots and the act of looking The revised and expanded chapters are supported by over three times as many photographs as in the first edition examining contemporary practices in more detail and equipping students with the analytical skills they need both in their academic studies and in their own practical work An indispensable guide to the field Photography The Key Concepts is core reading for all courses that consider the place of photography in society within photographic practice visual culture art media and cultural studies *Aftershock* Kieran Cashell,2009-08-30 Accused by the tabloid press of setting out to shock controversial artworks are vigorously defended by art critics who frequently downplay their disturbing emotional impact This is the first book to subject contemporary art to a rigorous ethical exploration It argues that in favouring conceptual rather than emotional reactions commentators actually fail to engage with the work they promote Scrutinising notorious works by artists including Damien Hirst Jake and Dinos Chapman Richard Billingham Marc Quinn Sally Mann Marcus Harvey Hans Bellmer Paul McCarthy Tierney Gearon and Tracey Emin *Aftershock* insists on the importance of visceral emotional and ethical responses Far from clouding our judgement Cashell argues shame outrage or revulsion are the very emotions that such works set out to evoke While also questioning the catch all notion of transgression this illuminating and controversial book neither jumps indiscriminately to the defence of shocking artworks nor dismisses them out of hand
