Queers Online Lgbt Digital Practices In Libraries Archives And Museums:

Queers Online Rachel Wexelbaum,2015 Addresses the digital practices of LGBT librarians archivists and museum curators as well as the digital practices of seekers and users of LGBT resources and services LGBTQ+ Librarianship in the 21st Century Bharat Mehra,2019-05-01 Libraries are at the heart of many of the communities they serve Increasingly it is important for them to adjust to serve minority groups including LGBTQ communities This collection presents original scholarship on the emerging directions of advocacy and community engagement in LGBTQ librarianship **Queer Literacies** Mark McBeth,2019-12-02 In a documentarian investigation of the major LGBTQ archives in the United States *Queer Literacies Discourses and Discontents* identifies the homophobic discourses that prevailed in the twentieth century by those discursive forces that also sponsored the literacy acquisition of the nation Mark McBeth tracks down the evidence of how these sponsors of literacy families teachers librarians doctors scientists and government agents instituted heteronormative platforms upon which public discourses were constructed After pinpointing and analyzing how this disparaging rhetoric emerged McBeth examines how certain LGBTQ advocates took counter literacy measures to upend and replace those discourses with more Queer affirming articulations Having lived contemporaneously while these events occurred McBeth incorporate narratives of his own lived experience of how these discourses impacted his own reading writing and researching capabilities In this auto archival research investigation McBeth argues that throughout the twentieth century Queer literates revised dominant and oppressive discourses as a means of survival and world making in their own words Scholars of rhetoric gender studies LGBTQ studies literary studies and communication studies will find this book particularly useful **Information Activism** Cait McKinney,2020-07-17 For decades lesbian feminists across the United States and Canada have created information to build movements and survive in a world that doesn't want them In *Information Activism* Cait McKinney traces how these women developed communication networks databases and digital archives that formed the foundation for their work Often learning on the fly and using everything from index cards to computers these activists brought people and their visions of justice together to organize store and provide access to information Focusing on the transition from paper to digital based archival techniques from the 1970s to the present McKinney shows how media technologies animate the collective and unspectacular labor that sustains social movements including their antiracist and trans inclusive endeavors By bringing sexuality studies to bear on media history McKinney demonstrates how groups with precarious access to control over information create their own innovative and resourceful techniques for generating and sharing knowledge Social Justice and Library Work Stephen Bales,2017-10-18 Although they may not have always been explicitly stated library work has always had normative goals Until recently such goals have largely been abstract they are things like knowledge creation education forwarding science preserving history supporting democracy and safeguarding civilization The modern spirit of social and cultural critique however has focused our attention

on the concrete material relationships that determine human potentiality and opportunity and library workers are increasingly seeing the institution of the library as well as library work as embedded in a web of relations that extends beyond the library's traditional sphere of influence. In light of this critical consciousness more and more library and information science professionals are coming to see themselves as change agents and front line advocates of social justice issues. This book will serve as a guide for those library workers and related information professionals that disregard traditional ideas of library neutrality and static idealized conceptions of Western culture. The book will work as an entry point for those just forming a consciousness oriented towards social justice work and will be also be of value to more experienced transformative library workers as an up to date supplement to their praxis. Justifies the use of a variety of theoretical and practical resources for effecting positive change. Explores the role of the librarian as change agents

Social Justice Design and Implementation in Library and Information Science Bharat Mehra, 2021-12-29 Social Justice Design and Implementation in Library and Information Science presents a range of case studies that have successfully implemented social justice as a designed strategy to generate community wide changes and social impact. Each chapter in the collection presents innovative practices that are strategized as intentional deliberate systematic outcome based and impact driven. They demonstrate effective examples of social justice design and implementation in LIS to generate meaningful outcomes across local regional national and international settings. Including reflections on challenges and opportunities in academic public school and special libraries museums archives and other information related settings the contributions present forward looking strategies that transcend historical and outdated notions of neutral stance and passive bystanders. Showcasing the intersections of LIS concepts and interdisciplinary theories with traditional and non traditional methods of research and practice the volume demonstrates how to further the social justice principles of fairness justice equity equality and empowerment of all people including those on the margins of society. Social Justice Design and Implementation in Library and Information Science will be of great interest to LIS educators scholars students information professionals library practitioners and all those interested in integrating social justice and inclusion advocacy into their information related efforts to develop impact driven externally focused and community relevant outcomes

Communities and Place Katherine Crawford-Lackey, Megan E. Springate, 2020-06-05 Lesbian gay bisexual transgender and queer LGBTQ people have established gathering spaces to find acceptance form social networks and unify to resist oppression. Framing the emergence of queer enclaves in reference to place this volume explores the physical and symbolic spaces of LGBTQ Americans. Authors provide an overview of the concept of place and its role in informing identity formation and community building. The book also includes interactive project prompts providing opportunities to practically apply topics and theories discussed in the chapters

LGBTQ Lobbying in the United States Christopher L. Pepin-Neff, 2021-05-26 LGBTQ Lobbying in the United States argues that the issues and tactics prioritized by the mainstream gay lobbying community fail to serve LGBTQ interests

and are complicit in perpetuating heteronormative power dynamics and institutions that render queer and trans people vulnerable to structural oppression The book posits that there are different LGBTQ lobbying communities a dominant gay mainstream lobbying category whose work advances heteronormative ideals and a second category of LGBTQ lobbying that is intersectional and challenges hegemonic heterosexual institutions Analysis in the book builds on existing public policy literature and is aided by the author's practitioner experience in lobbying for LGBTQ issues in Washington D C over the past 20 years This book is suitable as a textbook for students and researchers in LGBTQ studies U S politics and gender studies The book will also appeal to activists and professionals in political lobbying Researching Digital Society Harry
