Painting In Spain 1500 1700:

Painting in Spain Jonathan Brown,1998 Focusing on the interaction between art and the socio economic and political conditions that prevailed in Spain s golden age this book offers information about religious beliefs social attitudes the activities of patrons and collectors and how these were absorbed and interpreted by painters The author sets the history of Spanish painting within a European context and explores Spain s contact with artistic centres in Italy and the Netherlands He discusses not only Spanish artists but also such non Spanish painters as Titian Rubens and Luca Giordano who either worked in Spain or influenced other artists there Brown also examines the collections of foreign paintings that Spanish noblemen and prelates assembled and how these collections affected the production of art and the social status of the Spanish artist In this up to date and innovative analysis of two hundred years of Spanish painting Brown describes a country that brilliantly transformed the artistic impulses it received from abroad to fit the needs of its own society *The Golden Age of Painting in Spain* Jonathan Brown,1991-01-01 El Greco Ribera Velazquez Murillo these were but a few of the great 16th and 17th century artists whose genius illuminated Spain s golden age of painting In this book Jonathan Brown surveys the development of painting in Spain during this period focussing on the interaction between art and the prevailing socio economic and political conditions **Images and Ideas in Seventeenth-Century Spanish Painting** Jonathan Brown,2022-02-08 Art historians have often minimized the variety and complexity of seventeenth century Spanish painting by concentrating on individual artists and their works and by stressing discovery of new information rather than interpretation As a consequence the painter emerges in isolation from the forces that shaped his work Jonathan Brown offers another approach to the subject by relating important Spanish Baroque paintings and painters to their cultural milieu A critical survey of the historiography of seventeenth century Spanish painting introduces this two part collection of essays Part One provides the most detailed study to date of the artistic literary academy of Francisco Pacheco and Part Two contains original studies of four major painters and their works Las Meninas of Vel zquez Zurbar n s decoration of the sacristy at Guadalupe and the work by Murillo and Vald s Leal for the Brotherhood of Charity Seville The essays are unified by the author s intention to show how the artists interacted with and responded to the prevailing social theological and historical currents of the time While this contextual approach is not uncommon in the study of European art it is newly applied here to restore some of the diversity and substance that Spanish Baroque painting originally possessed An Elementary History of Art N.
