Quantum Mechanics David H. McIntyre, 2022-09-15 This popular undergraduate quantum mechanics textbook adopts a novel and intuitive approach to teaching quantum mechanics *Affirmative Intervention to Support Multispecies Relationships* Janet J. McIntyre-Mills, 2024-11-29 This book offers a pioneering approach to collaborative co authorship integrating storytelling participatory action research and innovative uses of technology like Zoom to bridge geographical and cultural divides The authors emphasize authentic dialogue using a form of metalogue to ensure all voices are heard and respected thus avoiding ventriloquy speaking for or over others Their praxis revolves around performative and regenerative projects involving indigenous custodians academics students and community members aiming to address Species Apartheid and promote a more inclusive and sustainable future The book s engagement model includes inner work focusing on critical analysis and analytical meditation on values and their consequences outer work involving transformative education and organic food production workshops to engage a broad community of practice and future work exploring narrative and if then scenarios to envision new possibilities with an emphasis on creativity and courage The authors draw inspiration from diverse sources including Indigenous knowledge systems and various academic institutes and organizations Through their collaborative efforts they aim to create a more inclusive sustainable and just world **Quantum Mechanics for Beginners** M. Suhail Zubairy, 2020 An introduction to the fascinating subject of quantum mechanics Almost entirely algebra based this book is accessible to those with only a high school background in physics and mathematics In addition to the foundations of quantum mechanics it also provides an introduction to the fields of quantum communication and quantum computing The British National Bibliography Arthur James Wells, 1979 Physics Teacher Education Joan Borg Marks, Pauline Galea, Suzanne Gatt, David Sands, 2022-09-15 This book presents the most up to date research contributions focusing on progress in the field of physics education It provides researches and results that are based on the most relevant matters in physics teacher education and how these matters can be improved for the satisfaction of both teachers and learners The work is the by product of the collaboration between GIREP the International Research Group on Physics Teaching and the University of Malta The contributing authors present close examinations of the following topics ICT and multimedia in teacher education experiments and laboratory work in teacher education the role of quantum mechanics in teaching and learning physics formal non formal and informal aspects of physics education at the primary level strategies for pre service physics teacher education at all levels and in service teacher professional learning strategies The editors hope that many different stakeholders within scientific academia will find something of value in this compilation of the current most advanced ideas in physics education **Transformative Education for Regeneration and Wellbeing** Janet J. McIntyre-Mills, Yvonne Corcoran-Nantes, 2022-09-29 The edited volume advocates for teaching systemic ethics as a form of life long learning within nature s classroom to support social and environmental justice This book also explains critical

systemic thinking as both an individual and a collective responsibility through many ways of knowing spanning the arts and sciences to inspire creativity This volume contributes to theory and practice by making suggestions as to how to re frame the content structure and process of education for transformation This volume makes a case for a more relational understanding of human beings and other species This volume also explores a more integrated curriculum where learners are given the opportunity to explore many ways of knowing and learning to learn and grow a future through circular economies co-operatives and learning communities This book highlights how the models of sustainable development focus on education for wellbeing in line with the UNESCO approach outlined in 2021 that emphasizes the systemic nature of education rooted in protecting the environment and supported by the participation of active global citizens This volume demonstrates transformation of our thinking and practice is overdue and calls for changing the narrative through our standing together and redesigning systems of education to prioritize a more holistic worldview that embraces the planet and living systems The focus of this volume is on values perspectives and ways to make a difference through addressing a range of practical concerns such as food energy and water security Ontologically the editors perspective is shaped by recognising kinship with nature as expressed by Indigenous custodians Epistemologically the editors and contributors to this volume explore ways to enhance education based on working across cultures and disciplines using a cross cultural approach and mixed methodology Axiologically the editors support the notion of transformative research that promotes balancing non anthropocentrism with an approach that draws on Indigenous wisdom whilst addressing patriarchal notions through gender mainstreaming
