Environmental Education and Awareness - Volume I Bhaskar Nath, 2009-09-23 Environmental Education and Awareness is a component of Encyclopedia of Human Resources Policy Development and Management which is part of the global Encyclopedia of Life Support Systems EOLSS an integrated compendium of twenty one Encyclopedias The Theme is organized into seven different topics which represent the main scientific areas of the theme The first topic Formal Environmental Education at Preschool Primary and Secondary Levels important issues of children s formal environmental education are discussed in this topic considering that as future adults today s children are more likely than not to make adverse impacts on the natural

environment and earth's life support systems through their behavior, life styles and attitude, the importance of formal environmental education for children as well as of instilling in their consciousness awareness of the natural environment and respect for it cannot be over stated. The succeeding six topics are Formal Environmental Education at the Undergraduate Level, Formal Environmental Education at the Graduate Level, Modern and Innovative Techniques for Environmental Education, Professional Environmental Education, Continuing Education, The Voluntary Sector and Initiatives in Environmental Education. Each of these consists of a topic chapter emphasizing the general aspects and various subject articles explaining the background theory and practice of a specific type of environmental education and awareness for achieving global sustainable development and global environmental sustainability that are now at the top of international environmental agenda. These two volumes are aimed at the following five major target audiences: University and College Students, Educators, Professional Practitioners, Research Personnel and Policy Analysts, Managers and Decision Makers and NGOs.

Resources in Education, 1986

Special and Gifted Education: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2016-04-25

Diverse learners with exceptional needs require a specialized curriculum that will help them to develop socially and intellectually in a way that traditional pedagogical practice is unable to fulfill. As educational technologies and theoretical approaches to learning continue to advance, so do the opportunities for exceptional children. **Special and Gifted Education: Concepts, Methodologies, Tools, and Applications** is an exhaustive compilation of emerging research, theoretical concepts and real world examples of the ways in which the education of special needs and exceptional children is evolving. Emphasizing pedagogical innovation and new ways of looking at contemporary educational practice, this multi volume reference work is ideal for inclusion in academic libraries for use by pre-service and in-service teachers, graduate level students, researchers and educational software designers and developers.
