Primetime Pundits Lynn Letukas, 2014-09-04 Despite the central role of punditry in our contemporary media environment research has been slow to examine punditry on cable news Deregulation the advent of cable television and the rise of a twenty four hour news cycle have dramatically transformed the structure and content of news paving the way for political pundits to come to the forefront Cable news networks in particular have played a critical role in challenging the neutrality of traditional media through the development of opinion programs that made highly politicized and entertaining content central to their primetime coverage Over the past three decades these opinionated programs have become increasingly popular as a programming strategy for cable news producers seeking to develop novel programming to target niche audiences The pundits who pontificate on these programs have come to dominate our national political dialogue and play a significant role in setting the public agenda and influencing public opinion in the United States Punditry and pundits lie at the heart of programming and network changes that have evolved over the past thirty years **Primetime Pundits How Cable News Covers Social Issues** explores the ascent of punditry and offers new models for understanding how social issues are covered not just by pundits but also in the larger changing media landscape [The Cambridge Handbook of Social](#)

After Tragedy Strikes Thomas D. Beamish, 2024-04-09 While trauma and loss can occur anywhere most suffering is experienced as personal tragedy Yet some tragedies transcend everyday life's sad but inevitable traumas to become notorious public events de facto public tragedies In these crises suffering is made publicly visible and lamentable Such tragedies are defined by public accusations social blame outpourings of grief and anger spontaneous memorialization and collective action These in turn generate a comparable set of political reactions including denial denunciation counterclaims blame avoidance and a competition to control memories of the event Disasters and crises are no more or less common today than in the past but public tragedies now seem ubiquitous After

Tragedy Strikes argues that they are now epochal public tragedies have become the day's definitive social and political events Thomas D Beamish deftly explores this phenomenon by developing the historical context within which these events occur and the role that political elites the media and an emergent ideology of victimhood have played in cultivating their ascendance

Just the Facts Joel Best, 2025 Why can't we seem to agree on facts In this succinct volume sociologist Joel Best turns his inimitable eye toward the social construction of what we think is true He evaluates how facts emerge from our social worlds including our beliefs values tastes and norms and how they align with those worlds standards He argues that by developing a sociological perspective toward what we think we know we can better parse the use of facts and untruths around us This book examines how facts are created and supported through science government law and journalism revealing that facts are actually claims These claims are malleable and can change over time through fact checking revision and sometimes rejection Best guides us through these processes so that we can question our assumptions and understand why disputes happen in the first place In a time of increasing social and political divide Just the Facts urges us to resist defensiveness over our facts and approach disputes in critical new ways
