Arts Therapies in the Treatment of Depression Ania Zubala, Vicky Karkou, 2018-05-16. Arts Therapies in the Treatment of Depression is a comprehensive compilation of expert knowledge on arts therapies' potential in successfully addressing depression. The book identifies ways of addressing the condition in therapy sessions, shares experience of tools and approaches which seem to work best, and guides towards a conscious and confident, evidence-based practice. Including contributions from international experts in the field of arts therapies, the book presents some of the most recent, high-profile and methodologically diverse research, whether in the form of clinical trials, surveys or case studies. The three sections of this volume correspond to particular life stages and explore major topics in arts therapies practice and the nature of depression in children, adults, and in later life. Individual chapters within the three sections represent all four arts therapies disciplines. The book hopes to improve existing arts therapies practice and research by encouraging researchers to use creativity in designing meaningful research projects and empowering practitioners to use evidence creatively for the benefit of their clients and the discipline.
