practical viewpoints of research in humanized technology Developing and Applying Assessments in the Music Classroom Kelly A. Parkes, Frederick Burrack, 2020-04-13 Developing and Applying Assessments in the Music Classroom addresses the challenges faced by today's K-12 educators and future music educators who are expected to utilize and incorporate assessment data as a hallmark of student learning and reflection of effective teaching. Highlighting best practices while presenting current scholarship and literature, this practical workbook-style text provides future music teachers with a framework for integrating assessment processes in the face of a certain lack of understanding and possible dissatisfaction with assessment tools and tasks. Each chapter is prefaced by an overview outlining learning expectations and essential questions and supplemented throughout by an array of pedagogical features: Discussion prompts, Activities and worksheets, Learning experiences, Expanded reference lists, Citing examples across a range of musical settings (e.g., band, chorus, orchestra, jazz, and piano and guitar labs). Developing and Applying Assessments in the Music Classroom builds from the classroom assessment paradigm, encouraging teachers to create assessment tasks most appropriate to their curricula goals and planned student outcomes. Joined by fellow experts in the field, Brian C. Wesolowski and Phillip Payne, the authors invite readers to explore and apply the material in authentic ways to inspire student learning through a comprehensive approach to educative assessment.

Gamification in Education: Breakthroughs in Research and Practice Management Association, Information Resources, 2018-01-05 Serious games provide a unique opportunity to fully engage students more than traditional teaching approaches. Understanding the best way to utilize these games and the concept of play in an educational setting is imperative for effectual learning in the 21st century. Gamification in Education: Breakthroughs in Research and Practice is an innovative reference source for the latest academic material on the different approaches and issues faced in integrating games within curriculums. Highlighting a range of topics such as learning through play, virtual worlds, and educational computer games, this publication is ideally designed for educators, administrators, software designers, and stakeholders in all levels of education.

World Music Pedagogy, Volume VII: Teaching World Music in Higher Education William J. Coppola, David G. Hebert, Patricia Shehan Campbell, 2020-08-30 World Music Pedagogy Volume VII: Teaching World Music in Higher Education addresses a pedagogical pathway of varied strategies for teaching world music in higher education, offering concrete means for diversifying undergraduate studies through world music culture courses. While the first six volumes in this series have detailed theoretical and applied principles of World Music Pedagogy within K-12 public schools and broader communities, this seventh volume is chiefly concerned with infusing culture-rich musical experiences through world music courses at the tertiary level, presenting a compelling argument for the growing need for such perspectives and approaches. These chapters include discussions of the logical trajectories of the framework into world music courses through which the authors seek to challenge the status quo of lecture-only academic courses in some college and university music programs. Unique to this series, each of these chapters illustrates practical procedures for incorporating the WMP framework into sample classes.

However this volume like the rest of the series is not a prescriptive recipe book of lesson plans Rather it seeks to enrich the conversation surrounding cultural diversity in music through philosophically rooted social justice conscious and practice oriented perspectives
