John Thornburg asked me to write a new tune for this well-known text for a worship celebration being sponsored by the Reconciling Ministries Network at the 2008 United Methodist General Conference in Fort Worth, Texas. My "country and western" tune was inspired by a Brad Paisley song at the end of the Polar movie, "Cars."

Ellinwood, 1896-01-01 It is said that the very latest among the sciences is the Science of Religion Without pausing to inquire how far it admits of scientific treatment certain reasons which may be urged for the study of the existing religions of the world will be considered in this lecture It must be admitted in the outset that those who have been the pioneers in this field of research have not as a rule been advocates of the Christian faith The anti Christian theory that all religions may be traced to common causes that common wants and aspirations of mankind have led to the development of various systems according to environment has until recently been the chief spur to this class of studies Accordingly the religions of the world have been submitted to some preconceived philosophy of language or ethnology or evolution with the emphasis placed upon such facts as seemed to comport with this theory Meanwhile there has been an air of broad minded charity in the manner in which the apologists of Oriental systems have treated the subject They have included Christ in the same category with Plato and Confucius and have generally placed Him at the head and this supposed breadth of sentiment

has given them a degree of influence with dubious and wavering Christians as well as with multitudes who are without faith of any kind In this country the study of comparative religion has been almost entirely in the hands of non evangelical writers We have had The Ten Great Religions from the pen of Rev James Freeman Clarke The Oriental Religions written with great labor by the late Samuel Johnson and Mr Moncure D Conway s Anthology with its flowers gathered from the sacred books of all systems and so chosen as to carry the implication that they all are equally inspired Many other works designed to show that Christianity was developed from ancient sun myths or was only a plagiarism upon the old mythologies of India have been current among us But strangely enough the Christian Church has seemed to regard this subject as scarcely worthy of serious consideration With the exception of a very able work on Buddhism and several review articles on Hinduism written by Professor S H Kellogg very little has been published from the Christian standpoint The term heathenism has been used as an expression of contempt and has been applied with too little discrimination
