Peppers, Jamie Almallen, Mary Welek Atwell, 2025-07-01 Why the death penalty is in decline across the United States Across the country the death penalty is dying Twenty two states have abandoned state sanctioned executions including nine in the last fifteen years Of the twenty eight states that still have the death penalty eight have not had an execution in over a decade And public support for the death penalty has declined from 80% of the surveyed population in the early 1990s to approximately 50% today As the death penalty slowly withers away Todd C Peppers Jamie Almallen and Mary Welek Atwell bring together a number of distinguished death penalty scholars activists and attorneys to take an accounting of the damage inflicted by the machinery of death Contributors to the book point to a range of different pathologies which have caused politicians and voters to turn against capital punishment from unacceptable rates of false convictions and racially motivated prosecutions to a clemency process poisoned by political factors Essay topics include various dimensions of the death penalty including racial and gender bias economic costs the conviction of juveniles the mentally ill and the factually innocent Supreme Court decisions and the failure of the death penalty to serve as a deterrent against crime This important volume is an up to date accounting of the current state and as the contributors argue the future demise of the death penalty

It further devotes a section to the most current and innovative methodological issues. Chapters are updated, providing an inclusive discussion of the current research and the theoretical and empirical future of crime and deviance. **Crime and Criminal Justice in American Society** Randall G. Shelden, William B. Brown, Karen S. Miller, Randal B. Fritzler, 2015-06-22 Today's headlines vividly illustrate the importance of understanding aspects of the criminal justice system too often ignored. While the second edition of *Crime and Criminal Justice in American Society* includes the most recent statistics on the police, courts, and corrections, its provocative current examples also spur critical thinking about justice in the United States. The authors offer an alternative interpretation of criminal justice rarely presented in traditional textbooks or by the media. They encourage readers to examine their beliefs about crime, punishment, and the law. Discussions in the chapters about how African Americans, Hispanics, whites, women, juveniles, the rich, and the poor experience crime and the criminal justice system contribute context for understanding different viewpoints. The poor and minorities are the most likely to be caught in the net of criminal justice, but inequities have consequences for everyone. Reflection on various perspectives provides helpful input for assessing attitudes and for becoming actively involved with issues that have significant consequences. Eighteen thoroughly revised chapters present historical backgrounds, theories, and emerging issues. New to the second edition is a chapter on veterans involved in the criminal justice system. Affordable, succinct, and engaging, this textbook presents the key concepts of the criminal justice system at less than half the cost of many competing textbooks.

**Words on Cassette**, 2000 Striking the Balance Matthew Lippman, SAGE Publications, Inc., 2016-12-22 Award-winning professor and author Matthew Lippman enhances teaching and learning with his newest text *Striking the Balance: Debating Criminal Justice and Law*. Designed to develop the reader's critical thinking skills, the text offers students summaries of contrasting views from original sources, questions for classroom discussion, and engaging You Decide activities. Additionally, chapter topics are independent of one another, giving instructors the flexibility to customize the material to their individual course organization. Edited to minimize technical legal terms, the text is the perfect companion to any criminal law or introductory criminal justice textbook.
