Drawing from a wide range of practical experience, the authors provide a basic guide to all aspects of museum work from audience development and education through collections management and conservation to museum organisation and forward planning. Organised on a modular basis with over 110 Units, *Museum Basics* can be used as a reference work to assist day to day museum management and as the key textbook in pre service and in service training programmes. It is designed to be supplemented by case studies, project work and group discussion. This third edition has been fully updated and extended to take account of the many changes that have occurred in the world of museums in the last five years. It includes over 100 new diagrams supporting the text, a glossary, sources of information and support as well as a select bibliography. *Museum Basics* is also now supported by its own companion website providing a wide range of additional resources for the reader.
