

The background of the book cover is a stylized collage of musical instruments and notation. It includes a blue double bass, a yellow trumpet, a tan guitar, a tan snare drum, and a sheet of music with a treble and bass clef and several notes. A yellow pencil is shown writing on the sheet music. The collage is composed of various geometric shapes and colors like blue, tan, yellow, and red.

Fundamentals of Music Processing Meinard Müller, 2015-07-21 This textbook provides both profound technological knowledge and a comprehensive treatment of essential topics in music processing and music information retrieval Including numerous examples figures and exercises this book is suited for students lecturers and researchers working in audio engineering computer science multimedia and musicology The book consists of eight chapters The first two cover foundations of music representations and the Fourier transform concepts that are then used throughout the book In the subsequent chapters concrete music processing tasks serve as a starting point Each of these chapters is organized in a similar fashion and starts with a general description of the music processing scenario at hand before integrating it into a wider context It then discusses in a mathematically rigorous way important techniques and algorithms that are generally applicable to a wide range of analysis classification and retrieval problems At the same time the techniques are directly applied to a specific music processing task By mixing theory and practice the book's goal is to offer detailed technological insights as well as a deep understanding of music processing applications Each chapter ends with a section that includes links to the research literature suggestions for further reading a list of references and exercises The chapters are organized in a modular fashion thus offering lecturers and readers many ways to choose rearrange or supplement the material Accordingly selected chapters or individual sections can easily be integrated into courses on general multimedia information science signal processing music informatics or the digital humanities

A Performer's Guide to Transcribing, Editing, and Arranging Early Music Alon Schab, 2022 A Performer's Guide to Transcribing Editing and Arranging Early Music provides instruction on three important tasks that early music performers often undertake in order to make their work more noticeable and appealing to their audiences First the book provides instruction on using early sources manuscripts prints and treatises in score parts or tablature It then illuminates priorities behind basic editorial decisions determining what constitutes a version of a musical piece how to choose a version and how to choose the source for that version Lastly the book offers advice about arranging both early and new music for early instruments including how to consider instruments ranges and various registers how to exploit the unique characteristics of period instruments and how to

produce convincing textures of accompaniment Drawing on methods based on early models for example how baroque composers arranged the music of their contemporaries Alon Schab pays tribute to the ideas and ideals promoted by the pioneers of the early music revival and examines how these could be implemented in an early music field revolutionized by technology and unprecedented artistic independence
