Musicophilia Musicophilia:

Musicophilia Oliver Sacks, 2008-09-23 NATIONAL BESTSELLER With the same trademark compassion and erudition he brought to *The Man Who Mistook His Wife for a Hat* Oliver Sacks explores the place music occupies in the brain and how it affects the human condition Powerful and compassionate A book that not only contributes to our understanding of the elusive magic of music but also illuminates the strange workings and misfirings of the human mind The New York Times In *Musicophilia* he shows us a variety of what he calls musical misalignments Among them a man struck by lightning who suddenly desires to become a pianist at the age of forty two an entire group of children with Williams syndrome who are hypermusical from birth people with amusia to whom a symphony sounds like the clattering of pots and pans and a man whose memory spans only seven seconds for everything but music Illuminating inspiring and utterly unforgettable

Musicophilia in Mumbai Tejaswini Niranjana, 2020-02-28 In *Musicophilia in Mumbai* Tejaswini Niranjana traces the place of Hindustani classical music in Mumbai throughout the long twentieth century as the city moved from being a seat of British colonial power to a vibrant postcolonial metropolis Drawing on historical archives newspapers oral histories and interviews with musicians critics students and instrument makers as well as her own personal experiences as a student of Hindustani classical music Niranjana shows how the widespread love of music throughout the city created a culture of collective listening that brought together people of diverse social and linguistic backgrounds This culture produced modern subjects Niranjana calls musicophiliacs whose subjectivity was grounded in a social rather than an individualistic context By attending concerts learning instruments and performing at home and in various urban environments musicophiliacs embodied forms of modernity that were distinct from those found in the West In tracing the relationship between musical practices and the formation of the social subject Niranjana opens up new ways to think about urbanity subjectivity culture and multiple modernities

Sacks, 2008 Music can move us to the heights or depths of emotion It can persuade us to buy something or remind us of our first date It can lift us out of depression when nothing else can It can get us dancing to its beat But the power of music goes much much further Indeed music occupies more areas of our brain than language does humans are a musical species Oliver Sacks's compassionate compelling tales of people struggling to adapt to different neurological conditions have fundamentally changed the way we think of our own brains and of the human experience Here he examines the powers of music through the individual experiences of patients musicians and everyday people Music is irresistible haunting and unforgettable and Oliver Sacks tells us why From publisher description
