Muslimische Identität in Europa Dispositive Gesellschaftlichen:

Muslimische Identitäten in Europa Sabine Schmitz, Tuba Isik, 2015-08-15 In vielen Teilen Europas sind Muslime heute Staatsbürger des jeweiligen Landes und ein Teil der jeweiligen Gesellschaft In der Folge begegnen sie häufig einem medial politisch oder auch gesellschaftlich forcierten religiösen Identifikationsvordruck der auf vielfältige Weise Rahmungen für ihre Selbstdefinition bzw ihr Selbstverhältnis setzt Diese Strukturen bilden ein heterogenes Netz aus diskursiven und nicht diskursiven Elementen Aus unterschiedlichen fachwissenschaftlichen Perspektiven untersuchen die Beiträge des Bandes diese Dispositive und zeigen ihre Wirkmächtigkeit für die kollektive Identität der Muslime in verschiedenen Ländern Europas auf The Church, Migration, and Global (In)Difference Darren J. Dias, Jaroslav Z. Skira, Michael S. Attridge, Gerard Mannion, 2021-01-21 The painful reality faced by refugees and migrants is one of the greatest moral challenges of our time in turn becoming a focus of significant scholarship This volume examines the global phenomenon of migration in its theological historical and socio political dimensions and of how churches and faith communities have responded to the challenges of such mass human movement The contributions reflect global perspectives with contributions from African Asian European North American and South American scholars and contexts The essays are interdisciplinary at the intersection of religion anthropology history political science gender and post colonial studies The volume brings together a variety of perspectives inter related by ecclesiological and theological concerns *No Separation* Ludger H. Viefhues-Bailey, 2023-10-10 Through a potent mix of authoritarianism heterosexism xenophobia and ethnoracial nationalism powerful illiberal Christian movements have upended liberal democracies in countries that were once seen as paradigms of secular governance Ludger H Viefhues Bailey offers new insight into the foundations of these movements demonstrating how they emerge from the contradictions at the intersection of secularism and democracy No Separation examines recent conflicts that link national identity religion and sexuality debates over Muslim veiling practices in Germany same sex marriage in France and migration and abortion in the United States In each case illiberal Christianities portray popular sovereignty as threatened at the same time as they display an obsessive concern with the politics of sex and reproduction Underlying these conflicts No Separation shows is the fundamental tension of democracy who belongs to the People Viefhues Bailey argues that when secularism and democracy meet cultural religions appear seeking control over women's bodies national borders and the racialized reproduction of the People in defense of the ideal of popular sovereignty Connecting political theology political philosophy and the sociology of religion with gender and sexuality studies No Separation is a deeply original analysis of the crisis of democracy and the limits of secularism It also suggests alternative ways of imagining the People proposing a more humane vision of borders sexualities and social bonds Religion und Identität Abderrahmane Ammar, 2020-12-07 Identität und Religion Gibt es einen Unterschied zwischen der religiösen Identität junger Marokkanerinnen in Marokko und marokkanisch stämmiger Jugendlicher in Deutschland auf der Ebene von Theorie und Praxis auf der Ebene von Text und Realität Fühlen sie sich frei von der Autorität

des Textes und der Tradition oder halten sie sich daran Abderrahmane Ammars quantitative Studie in marokkanischen Vereinen und Moscheen in Frankfurt zeigt dass die individuelle und die kollektive Identität im islamischen Kontext nicht nur vom Glauben von Geboten und Verboten beeinflusst wird sondern ganz im Sinn der situativen Identität nach John Waterbury zu einem großen Teil auch von der lokalen Kultur sowie den Bräuchen und Traditionen aus der vor islamischen Zeit *Islam and the Governing of Muslims in France* Frank Peter, 2021-01-28 Will Islam be able to adapt to France's secularity and its strict separation of public and private spheres Can France accommodate Muslims In this book Frank Peter argues that the debate about Islam and Muslims is not simply caused by ignorance or Islamophobia Rather it is an integral part of how secularism is reasoned Islam and the Governing of Muslims in France shows that understanding religion as separate from other aspects of life such as politics economy and culture disregards the ways religion has operated and been managed in secular societies such as France This book uncovers the varying rationalities of the secular that have developed over the past few decades in France to govern Islam in order to examine how Muslims engage with the secular regime and contribute to its transformation This book offers a close analysis of French secularism as it has been debated by Islamic intellectuals and activists from the 1990s until the present It will influence the study of secularism as well as the study of Islam in the French Republic and reveal new connections between Islamic traditions and secular rationalities **Religion in Liberal**

Democracy as a Form of Life Christoph Baumgartner, 2024-12-03 Religion in Liberal Democracy as a Form of Life advances a theory to deal with the challenges connected to the liberal democratic ideal that all people are free to codetermine the future of their society and equally entitled to their religion and beliefs given the historical bias towards Christianity in politics and culture within many European societies Religious diversity and social and political participation are in fact fiercely contested issues Critical scholars from philosophy and cultural theory contest that liberal political theories of freedom of religion can adequately deal with issues connected to an increasingly diversified and secularized religious field in historically Christian societies Consequently they claim that politics based on such theories cannot deliver on the promise to ensure conditions that allow all members of society equal religious freedom and political participation By outlining historical developments and by closely examining case studies of recent controversies about religious diversity in Germany and the Netherlands this book identifies shortcomings of the currently predominant liberal account of freedom of religion or belief Based on this analysis the author proposes a more complex theory of liberal democracy as a form of life with religion and religious freedom as components of it This takes into account that informal norms social structures and predominant notions of belonging can function as powerful obstacles to freedom and equality even if formal legal and political institutions prohibit discrimination based on religion Construing liberal democracy as a form of life that is as a set of social practices attitudes and their institutional manifestations and material expressions shifts the focus of critical analysis from the law to informal structures and components This provides an understanding of the dynamics of culturalized religion in society which

has often been missing in political philosophical theories The theory proposed in this book provides normative criteria for building liberal democracies that are tolerant with respect to religious differences and solidaric in terms of ensuring conditions that allow all members of society to codetermine as equals the future of society irrespective of their religion or beliefs This book will appeal to scholars of political theory social and political philosophy religious studies sociology and anthropology

Junge Alevit*innen und Sunnit*innen in der postmigrantischen Gesellschaft Dilek A. Tepeli, 2024-12-01

Historische Verletzungen zwischen Angehörigen von Großgruppen verblasen nicht einfach mit der Zeit hinweg Am empirischen Fallbeispiel der alevitisch-sunnitischen Verletzungsbeziehungen zeigt sich, dass postmigrantische Gesellschaften durch vielfältige oftmals unsichtbare Verletzungsverhältnisse ihrer Einwanderungsgruppen mitstrukturiert sind Diese innere Diversität bleibt jedoch häufig verborgen weil die Migrationsdebatte oftmals vereinfacht auf den Islam und die Muslim*innen verengt wird Die vorliegende Untersuchung zeigt stattdessen die Binnendiversität der türkischstämmigen Einwanderungsgruppe auf und nimmt die Verletzungsrisiken junger Alevit*innen und Sunnit*innen in der postmigrantischen Gesellschaft in den Blick Die empirischen Ergebnisse verdeutlichen zwar gemeinsame Differenzenerfahrungen der alevitisch-sunnitischen Jugend als Postmigrant*innen aber sie legen auch erhöhte Verletzungsrisiken und -potentiale der alevitischen Jugend offen Dieses zentrale Ergebnis ist relevant für die Integrations- und Migrationsforschung denn es zeigt wichtige interne Differenzierungen und erhöhte Verletzungsrisiken in heterogenen Einwanderungsgruppen auf
