Patients

There are many ways to learn from our patients. One way is to ask them for their feedback. Another way is to observe them in their own homes. A third way is to use technology to collect data on their behavior. All of these methods can help us to better understand our patients and to improve our care. We are committed to learning from our patients and to providing them with the best possible care.

Preventing Patient Suicide Robert I. Simon, 2010-08-24 Today s psychiatrists practice in an environment that poses difficult challenges Both treatment time and duration are limited by insurance requirements many facilities are understaffed split treatment arrangements are typical and high risk acutely suicidal patients are admitted to inpatient units for short lengths of stay In addition law now plays a pervasive role in the practice of psychiatry The doctor patient relationship is no longer defined solely by the involved parties Clinicians must juggle these requirements and limitations while providing the very best care to their patients especially those at high risk *Preventing Patient Suicide: Clinical Assessment and Management* provides the wisdom of Dr Robert I Simon s vast clinical experience combined with the latest insights from the evidence based psychiatric literature to offer a cutting edge survey of suicide prevention and management techniques The author Addresses sudden improvement in high risk suicidal patients a phenomenon both common and perilous with techniques for determining whether the improvement is real or feigned Explores in depth the misuse of suicide risk assessment forms with emphasis on their inherent limitations Examines the many entrenched myths and traditions about suicide exposing them to the critical light of evidence based medicine including the concept of imminent suicide risk and the myth of passive suicide ideation Discusses the continuum of chronic and acute high risk suicidal patients the fluidity with which one can become the other and the difficulty in assessing these patients Explores how the law and psychiatry interact in frequently occurring clinical situations and the importance of therapeutic risk management In addition the book contains a variety of features that illuminate the subject and enhance the reader s understanding including Inclusion of illustrative case studies combined with commentary on commonly occurring but complex clinical situations Key points at the end of each chapter that identify critical information A Suicide Risk Assessment Self Test a teaching instrument that consists of fifty questions designed to enhance clinician suicide risk assessment by incorporating evidence based risk and protective factors Dr Simon provides a nuanced empathic yet pragmatic perspective on identifying assessing and managing the suicidal patient while successfully navigating a complex legal and clinical environment that poses its own risks to the practitioner

The Suicidal Patient Bruce Michael Bongar, 1991 Patient suicide is not a rare event in psychological practice it should be considered a real personal and occupational hazard by those psychologists involved in direct patient care *The Suicidal Patient: Clinical and Legal Standards of Care* reviews the theoretical

and empirical literature in this high risk patient population combining clinical knowledge with legal and statutory information This book proposes a working model for the assessment management and treatment of the suicidal patient in both inpatient and outpatient contexts that combines suggestions for optimal clinical practice with sophisticated risk management strategies in the context of suicide prevention and postvention This volume will become a standard reference in the area of psychological practice *Suicide Risk Management* Sonia Chehil, Stanley P. Kutcher, 2012-01-30 *Suicide Risk Management* A Manual for Health Professionals is a short clearly written book that provides practical guidance on how to manage the suicidal or potentially suicidal patient Written by two expert teachers the book has been used in courses for trainee psychiatrists and for health professionals throughout the world Feedback from participants on these courses has informed revision of the new edition This book is of interest for all mental health professionals who come into contact with patients who present with suicide potential i e all mental health professionals as well as general health professionals who are often the first point of contact for a suicidal patient The book opens with a review of the epidemiology risk factors and associated aspects of suicide It then presents two assessment tools The Tool for Assessment of Suicide Risk TASR provides instruction on how to use it appropriately in the clinic The Suicide Risk Assessment Guide SRAG acts as a self study program to assess clinical evaluation skills Both tools were created for use in the authors own practice and are now successfully taught to and used by health professionals around the world Refined through actual experience these proven tools help assess and evaluate patients with confidence Case vignettes allow the reader to practice using the information they have learned from the book Throughout the book bulleted lists tables and flowcharts effectively describe how to use the many factors to assess the risk of suicide in an individual patient
