Supporting Children's Well-Being During Early Childhood Transition to School Tatalović Vorkapić, Sanja, LoCasale-Crouch, Jennifer, 2020-10-23 Life transitions differ concerning the intensity of the change and the intensity of the child's reaction to that change. For most children the first and most significant transition is from the family home to an institution of early care and education which includes preschool. These transitions can also include children's passage from kindergarten to elementary school. However the intensity of the child's reaction is related to the size of the change that is happening and also to who or what is involved in that change and the importance a child attributes to that someone or something. **Supporting Children's Well-Being During Early Childhood Transition to School** is an essential scholarly publication that examines evidence-based practices and approaches that fully support a child's well-being during transition periods in early childhood. It serves as a resource to rethink contemporary transition theoretical models, research studies, and applied practices. Featuring a wide range of topics such as emotional competency, language learners, and professional development, this book is ideal for academicians, psychologists, early childhood educators, daycare centers, curriculum designers, policymakers, researchers, education professionals, and students.

Anti-Racism in Early Childhood Education Kerry-Ann Escayg, Flóra Faragó, Terry Husband, This comprehensive and timely text explains the need for and application of anti-racist teaching with children birth age 8. Systemic racism remains a longstanding social, economic, and cultural reality in the United States, Canada, and beyond. By actively implementing the anti-racist strategies in this book, early childhood educators can create learning environments that are not only inclusive and equitable but that also help young children develop a strong understanding of race and racism so they can become agents of social change. Moving beyond theorizing anti-racism and whiteness, chapters provide actionable guidance to help readers identify and resist racism in early years teaching. A diverse group of over 35 contributors offer insights on children's racial knowledge, classroom practices that cultivate children's racial pride, and agency, anti-racist teacher preparation, and more. This valuable teaching resource will help readers take direct and intentional action against racist behaviors, practices, policies, and beliefs to dismantle and interrupt racism within and beyond their early learning environments. **Book Features:** Explores why anti-racist curricula and practices are needed in early childhood classrooms now more than ever. Offers examples of anti-racist teaching strategies such as how to choose multicultural books, find alternative spaces and time to challenge whiteness, use Afrocentric curricula, and make use of digital technology. Incorporates creative expressions such as fiction, poetry, photo stories, and childhood reflections. Looks at recent applications of anti-racist pedagogy to teacher preparation and professional development training. Advocates for an anti-racist early childhood education that explicitly names race and racism and works toward reconstructing
