Prevention Compensation Transboundary Cross Border Pipelines:

Liability for Transboundary Pollution at the Intersection of Public and Private International Law Guillaume Laganière, 2022-02-24 This book focuses on how public and private international law address civil liability for transboundary pollution In public international law civil liability treaties promote the implementation of minimum procedural standards in domestic tort law This approach implicitly relies on private international law to facilitate civil litigation against transboundary polluters Yet this connection remains poorly understood Filling the gap this book engages in a meaningful dialogue between the two areas and explores how domestic private international law can reflect the policies developed in international environmental law It begins with an investigation of civil liability in international environmental law It then identifies preferable rules of civil jurisdiction foreign judgments and choice of law for environmental damage using Canadian private international law as a case study and making extensive references to European law Liability for transboundary pollution is a contentious issue of the law both in scholarship and practice international lawyers both private and public as well as environmental lawyers will welcome this important work *Energy Law, Climate Change and the Environment* Martha M. Roggenkamp, Kars J. de Graaf, Ruven C. Fleming, 2021-05-21 This comprehensive volume of the Elgar Encyclopedia of Environmental Law provides an overview of the major elements of energy law from a global perspective Based on an in depth analysis of the energy chain it offers insight into the impacts of climate change and environmental issues on energy law and the energy sector This timely reference work highlights the need for modern energy law to consider environmental impacts and promote the use of clean energy sources whilst also safeguarding a reliable and affordable energy supply

Prevention and Compensation of Trans-boundary Damage in Relation to Cross-border Oil and Gas Pipelines Mehdi Piri Damagh, 2015 This book examines the legal frameworks applying to offshore grid development under international law European Union law and national law It reveals that these legal frameworks have not been developed to facilitate such complex cross border infrastructure **Energy Efficiency Improvement of Geotechnical Systems** Genadiy Pivnyak, Oleksandr Beshta, Mykhaylo Alekseyev, 2013-11-19 This book covers innovative technologies and approaches for improvement of technical and economic parameters of functional geotechnical systems The focus is on mathematical modelling of objects and processes as well as the development of techniques and their control algorithms The book comprises schemata of practical tasks solving related to mine ventilation and electrical circuit operation cutter loaders and mining electrical vehicles It also demonstrates possible applications of hybrid technologies and IT methods to the work of geotechnical systems Implementation of methods and technologies presented in the book will allow to reduce energy resources consumption of geotechnical systems and to enhance environmental and economic parameters of their operation being one of the essential conditions for sustainable development in modern society The book is particular of interest to technical specialists researchers students and university teachers whose work is connected to the improvement of efficiency

of geotechnical systems *Criminological and Legal Consequences of Climate Change* Stephen Farrall, Tawhida Ahmed, Duncan French, 2012-04-02 This edited collection the result of an international seminar held at the International Institute for the Sociology of Law Oñati Spain in 2010 explores the potential legal and criminological consequences of climate change both domestically and for the international community A novel feature of the book is the consideration given to the potential synergies between the two disciplinary foci thus to encourage among legal scholars and criminologists not only an analysis of the consequences of climate change from these perspectives but to bring these fields together to provide a unique inter disciplinary exploration of the ways in which climate change does or could impact on our societies Such an inter disciplinary approach is necessary given that climate change is a multifaceted phenomenon and one which is intimately linked across disciplines To study this topic from the point of view of a single social science discipline restricts our understanding of the societal consequences of climate change It is hoped that this edited collection will identify emerging areas of concern illuminate areas for further research and most of all encourage future academic discussion on this most critical of issues **Regulatory Gaps in Baltic Sea Governance** Henrik Ringbom, 2018-04-04 The focus of this publication is the uniqueness of the Baltic Sea from a legal perspective and the regulatory voids that result from the multiple layers of regulation this area is subjected to up to six layers of regulation general international law regional conventions EU law national laws local and municipal rules plus a whole range of non binding norms and other soft law arrangements act in parallel However a large number of rules or regulatory layers does not in itself ensure effectiveness or consistency When the regulatory landscape is approached from the point of view of individual substantive topics it is apparent that the norms of different regulatory layers entail both overlaps gaps and uncertainties differently for each topic This publication addresses a selection of topics that are decidedly international in nature but for which current international and EU rules include important gaps or uncertainties In addition to presenting a set of legal analyses of topical issues for the region which in itself is a meritorious objective in view of the relative scarcity of legal studies with a focus on the Baltic Sea the publication also seeks to analyze the regulatory anatomy of the selected issues in more detail Through the legal analyses the chapters explore how regulatory gaps are formed how they are filled how the rules of the different layers work together and interact with each other in the selected areas Accordingly the secondary ambition is to explore through the chapters whether more general conclusions can be drawn about the nature of the regulatory gaps and multi layerism in order to produce a better understanding of how regulations on multiple levels operate in practice **Proceedings** ,1995 CD ROM copy for 2001 contains also abstracts since 1969 full text proceedings for 1995 2001 and technical papers for 1995 1999 **Congressional Record** United States. Congress, 1996 **Congressional Record Index** ,1996 Includes history of bills and resolutions *Annual Report for ...* Asian Development Bank, 1967
