*Pensions, Politics and the Elderly* Daniel J. B. Mitchell, 2016-09-16 This is an historical exploration of the US pensioner movements of the late 1920s through to the early 1950s and the insights they offer policy analysts and researchers on how the forthcoming retirement of the Baby Boom generation could proceed

**In Pursuit of Utopia** Errol Wayne Stevens, 2021-07 During the Great Depression the Los Angeles area was rife with radical movements Although many observers thought their ideas unworkable even dangerous Southern Californians voted for them by the tens of thousands This book asks why To find answers author Errol Wayne Stevens takes readers through the history of such movements as the Utopian Society Dr Francis Townsend s old age revolving pension plan Upton Sinclair s End Poverty in California gubernatorial campaign and Retirement Life Payments known as Ham and Eggs The book also examines the Los Angeles Communists and the free market capitalists both quasi religious movements with large followings as well as the self help cooperatives a spontaneous upsurge of neighbors who came together to help one another in a time of desperate need As to these movements extraordinary popularity Stevens finds the standard explanations unpersuasive He debunks the idea that naive unsophisticated Southern Californians living aimless empty lives suffering from ennui and longing for community readily supported charismatic leaders who promised a way out of the Great Depression In Stevens s telling Southern Californians supported these movements because they spoke to their needs Fearful or desperate some elderly and hopeless Angelenos cared less about the programs feasibility than about their promise of relief As one Ham and Eggs supporter succinctly explained It may be a racket and maybe it won t work more than a couple of weeks but that will be 60 more than I ever got before for one vote Finding parallels between past and present readers might wonder why people remain loyal to programs that prove unrealistic or why voters continue to support leaders who reveal time and again their ignorance or dishonesty In its illumination of a troubled time in American history not so long ago this book offers insight into our own

Technology as Freedom Ronald C. Tobey, 2023-11-15 Before 1930 the domestic market for electrical appliances was segmented but New Deal policies and programs created a true mass market reshaping the electrical and housing markets and guiding them toward mandated social goals The New Deal identified electrical refrigeration as a key technology to reform domestic labor raise family health and build family assets New Deal incentives led to nearly fifty percent of Title I National Housing Act loans being used to buy electric refrigerators in the 1930s New Deal policies ultimately created the mass commodity culture of home owning families that typified the conservative 1950s This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1996

Changing Minds Francesca Polletta, Edwin Amenta, 2025-01-16 Social movements organized efforts by relatively powerless people to change

society can result in legal and policy changes such as laws protecting same sex marriage and tax rebates for solar energy. However, movements also change people's beliefs, values, and everyday behavior. Such changes may help bring about new policies or take place in the absence of new policy, yet we still know little about when and why they occur. In *Changing Minds*, sociologists Francesca Polletta and Edwin Amenta ask why movements have sometimes had fast and far-reaching cultural influence. Polletta and Amenta examine the trajectories of U.S. social movements including the old age pension movements of the 1930s and 1940s, the Black rights movement of the 1950s and 1960s, the women's movement of the 1970s, right wing movements in the 1980s and 1990s, and the environmental movement up to the present to determine when, why, and how social movements change culture. They find that influential movements are featured in the news, but not only in the news. Movement perspectives may appear also in opinion and commentary outlets on television, talk shows, and dramas in movies, stand-up comedy, and viral memes. Popular culture producers remake movement messages as they transmit them, sometimes in ways that make those messages compelling. For example, while the news largely ignored feminists' challenge to inequality in the home, popular cultural outlets turned liberation into a resonant demand for women's right to self-fulfillment outside the home and within it. Widespread attention to the movement may lead people to change their minds individually. But more substantial change is likely when companies, schools, and other organizations outside government strive to get out in front of a newly legitimate issue, whether environmental sustainability or racial equity, by adopting movement-supportive norms and practices. Eventually, ideas associated with a movement may become a new common sense, though not always the ideas that the movement intended. Throughout *Changing Minds*, Polletta and Amenta provide activists with strategies for getting their message heard and acted on. They suggest how movement actors can get into the news as political players or experts rather than lawbreakers or zealots. They show when it makes sense for activists to work with popular cultural producers and when they should create their own cultural outlets. They explain why the routes to cultural influence have changed and why urging people to take one easy step to save the planet can do more harm than good. *Changing Minds* is a fascinating exploration of why and how some social movements have caused profound shifts in society. **The New Deal** Anthony J.

Badger, 1987-10-01 In tackling America's worst depression, the New Deal brought the federal government into unprecedented contact with most Americans and shaped the political economy of the contemporary United States. This major new study incorporates the results of many recent case studies of the New Deal and provides a detailed assessment of the impact of the depression and New Deal programmes on businessmen, industrial workers, farmers, and the unemployed. In his thematic analysis of the implementation of particular programmes, rather than in a narrative of policymaking, Dr Badger explains the political and ideological constraints which limited the changes wrought by the New Deal. **For All These Rights** Jennifer Klein, 2010-01-02 The New Deal placed security at the center of American political and economic life by establishing an explicit partnership between the state, economy, and citizens. In America, unlike anywhere else in the world, most people

depend overwhelmingly on private health insurance and employee benefits The astounding rise of this phenomenon from before World War II however has been largely overlooked In this powerful history of the American reliance on employment based benefits Jennifer Klein examines the interwoven politics of social provision and labor relations from the 1910s to the 1960s Through a narrative that connects the commercial life insurance industry the politics of Social Security organized labor's quest for economic security and the evolution of modern health insurance she shows how the firm centered welfare system emerged Moreover the imperatives of industrial relations Klein argues shaped public and private social security Looking closely at unions and communities Klein uncovers the wide range of alternative community based health plans that had begun to germinate in the 1930s and 1940s but that eventually succumbed to commercial health insurance and pensions She also illuminates the contests to define security job security health security and old age security following World War II For All These Rights traces the fate of the New Deal emphasis on social entitlement as the private sector competed with and emulated Roosevelt's Social Security program Through the story of struggles over health security and old age security social rights and the welfare state it traces the fate of New Deal liberalism as a set of ideas about the state security and labor rights in the 1950s the 1960s and beyond **How Social Movements Matter** Marco Giugni,Doug McAdam,Charles Tilly,1999 Bringing together several well known scholars this volume offers an assessment of the consequences of social movements in Western countries Policy institutional cultural short and long term and intended and unintended outcomes are among the types of consequences the authors consider in depth They also compare political outcomes of several contemporary movements specifically women's peace ecology and extreme right wing movements in different countries Book jacket

**Liberty and Freedom** David Hackett Fischer,2005 The bestselling author of Washington's Crossing and Albion's Seed offers a strikingly original history of America's founding principles Fischer examines liberty and freedom not as philosophical or political abstractions but as folkways and popular beliefs deeply embedded in American culture 400 illustrations 250 in full color **An Annotated Bibliography of the History of Old Age in America** James H. Conrad,1978 *Caring for Mom and Dad* Susan Stein-Roggenbuck,2023-10-05 Throughout the twentieth century the United States implemented social policies targeting the needs of dependent parents parents who were no longer able to work but lacked sufficient financial resources to support themselves These parent dependency policies either encouraged or required family members particularly adult children to provide support as an alternative to government benefits Debates over how best to support aging parents centered on conceptualizations of dependency and the moral obligations family owed their parents Measures of dependency often inhibited aging Americans access to benefits they needed focusing instead on ensuring that they were in fact dependent and that other family resources were not available Susan Stein Roggenbuck highlights this understudied aspect of the modern US welfare state highlighting the limited support provided to aging parents and the hardship they and their adult children endured in the efforts to minimize public expenditures
