Riqueza Las Naciones Adam Smith:

LA RIQUEZA DE LAS NACIONES - Adam Smith Adam Smith, 2023-04-27 La Riqueza de las Naciones es la famosa obra de Adam Smith. Analiza los ricos sobre el funcionamiento de las llamadas sociedades comerciales, las ventajas y problemas asociados a la división del trabajo, el valor, la distribución del ingreso y la acumulación de capital. El libro trae consideraciones históricas y abundante material empírico, siendo considerado un momento de inflexión en el desarrollo de la historia del pensamiento económico. Publicado el mismo año que la Declaración de Independencia de los Estados Unidos, el trabajo senta las bases del pensamiento de economistas políticos, matemáticos, biólogos y pensadores en todos los campos. La Riqueza de las Naciones representa un claro cambio de paradigma en el campo de la economía, comparable al trabajo sobre el origen de las especies de Charles Darwin para la biología. Como uno de los libros más citados de todos los tiempos, La Riqueza de las Naciones es una obra que sin duda merece ser leída.

Adam Smith and The Wealth of Nations in Spain Jesús Astigarraga, Juan Zabalza, 2021-12-19 Adam Smith's *An Inquiry into the Nature and Causes of the Wealth of Nations* was the product of the rich tradition of the Scottish Enlightenment, but the book's fame immediately spread across the whole of Europe. This book looks at the long journey of Smith's ideas from Scotland to peninsular Spain, reconstructing in detail the reception, adaptation, interpretation and application of Smith's central concepts from 1777 up to 1840. In light of methodological advances during the last two decades in the history of economic thought and the studies on the late Spanish Enlightenment and early Liberalism, the book tackles a series of significant issues and gaps in the historiography. In particular, this book sheds new light on the role of France as an intermediate step as the ideas spread from Britain southwards; the analysis draws not just on translations but also handwritten materials, book reviews, syntheses, summaries, plagiarism and rebuttals. A wide range of methods of dissemination are considered, including the printing press and periodicals, parliamentary debates, academic chairs and societies. The role of individual translators and agents is given due prominence. The political interpretations of the *Wealth of Nations* and the ways in which the book was incorporated into the work of Spanish economists in the decades following publication are also considered. This book marks a significant contribution to the literature on the reception of Smith's *Wealth of Nations*, studies of the Spanish Enlightenment and history of economic thought more broadly.

A Critical Bibliography of Adam Smith Hiroshi Mizuta, 2016-07-01 This critical bibliography of Adam Smith takes as its starting point the Kress Library of Business and Economics 1939 catalogue of its Vanderblue Collection of Smithiana. Since the bicentenary of *The Wealth of Nations* in 1976, the rate of international publication markedly accelerated, significantly extending the scope of this bibliography beyond 1939. Its scope has been further enlarged via the inclusion of essays on the diffusion process, while the inclusion of all works in the chronological main bibliography gives an overview of the scope of this process. The notes appended to the entries provide a running commentary to the gathering pace of publication, and the entries are organised chronologically with systematic annotation throughout.
