Risk Management And Political Culture Social Research Perspectives:

Risk Management and Political Culture Sheila Jasanoff, 1986-07-02 This unique comparative study looks at efforts to regulate carcinogenic chemicals in several Western democracies including the United States and finds marked national differences in how conflicting scientific interpretations and competing political interests are resolved Whether risk issues are referred to expert committees without public debate or debated openly in a variety of forums patterns of interaction among experts policy makers and the public reflect fundamental features of each country s political culture A provocative argument Poses interesting questions for the sociology of science especially science produced for public debate Contemporary Sociology A Volume in the Russell Sage Foundation s Social Science Frontiers Series The Environment and Mental Health Ante Lundberg, 2013-05-13 Environmental illness is a concept of growing concern to all health professionals Patients with problems presumably caused by sick buildings electromagnetic fields and hypersensitivity to chemicals to name a few are often referred to psychologists psychiatrists and other counselors The battery worker with fatigue headaches abdominal pain and an elevated lead level the assembly worker with pain and numbness in her hand and delayed median nerve conduction the patient who develops typical contact dermatitis after working with epoxies these are straightforward cases But they are in the minority In many cases needy demanding and difficult patients present complex and challenging psychological issues Practitioners often lack the training or wisdom to handle these issues effectively We know that exposure to lead mercury and PCBs affect psychological development and behavior we know much less about the effects of thousands of other chemicals in the environment In addition global climate change social disruption and the spread of infections will in the near future expose people to novel environmental threats Symptoms caused by toxins can overlap those caused by fear stress and depression and the clinical picture can mimic a variety of other mental disorders On the other hand the natural environment can also be a healer Research shows that hospital stays are shortened and the need for pain medication reduced for patients exposed to nature even in images or to the company of animals Nursing home patients live longer if allowed to keep pets and one controlled study shows that caring for animals reduces disruptive behavior in even the most difficult ADD children This book offers the first overview of the many ways the environment can affect mental health and illness It will prove to be an important and valuable resource for physicians in psychiatry public health and environmental medicine for clinical and counseling psychologists and social workers and for environmental researchers and advocates worldwide

Industrial Ecology and Global Change R. Socolow, 1994 Discusses a different approach to addressing environmental problems aimed at a broad interdisciplinary audience *Risk Management and Political Culture* Sheila Jasanoff, 1986-07-02 This unique comparative study looks at efforts to regulate carcinogenic chemicals in several Western democracies including the United States and finds marked national differences in how conflicting scientific interpretations and competing political interests are resolved Whether risk issues are referred to expert committees without public debate or debated openly in a

variety of forums patterns of interaction among experts policy makers and the public reflect fundamental features of each country's political culture A provocative argument Poses interesting questions for the sociology of science especially science produced for public debate Contemporary Sociology A Volume in the Russell Sage Foundation's Social Science Frontiers Series Experts in Science and Society Elke Kurz-Milcke, Gerd Gigerenzer, 2007-05-08 Taking the viewpoint that experts are consulted when there is something important at stake for an individual a group or society at large this volume explores expertise as a relational concept In order to be culturally comparative this volume includes examples and discussions of experts in different countries and even in different time periods The topics include the roles of political experts scientific experts medical experts and legal experts **The Paradoxes of Transparency** Douglas Clyde Wilson, 2009 The International Council for the Exploration of the Sea ICES is the central scientific network within the massive set of bureaucracies that is responsible for Europe's Common Fisheries Policy CFP While spending the past 25 years failing to sustain Europe's fish stocks this management system also became adept at making the lives of its scientists miserable Now it is being confronted by the complex challenge of an ecosystem based approach to fisheries management If this combination of a multi national bureaucracy hard politics and scientific uncertainty has made it impossible to maintain many individual fish stocks how are decisions going to be made that consider everything from sea birds to climate change The old political saw that if you can't solve a problem make it bigger has never been put to a test like this Yet ICES has begun to rise in an impressive way to the scientific challenge of providing advice for an ecosystem approach within the world's most cumbersome fisheries management system This book lays out the results of extensive sociological research on ICES and the decision making systems into which it feeds ICES is finding ways to provide effective advice in the many situations where scientific advice is needed but a clear simple answer is out of reach In spite of the difficulties scientists are beginning to help the various parties concerned with management to deal with facts about nature in ways that are more useful and transparent Publisher's description **Risk Assessment for Environmental Health** Mark G. Robson, William A. Toscano, 2007-03-22 Written by experts in the field this important book provides an introduction to current risk assessment practices and procedures and explores the intrinsic complexities challenges and controversies associated with analysis of environmental health risks Environmental Health Risk Assessment for Public Health offers 27 substantial chapters on risk related topics that include What Is Risk and Why Study Risk Assessment The Risk Assessment Risk Management Paradigm Risk Assessment and Regulatory Decision Making in Environmental Health Toxicological Basis of Risk Assessment The Application of PBPK Modeling to Risk Assessment Probabilistic Models to Characterize Aggregate and Cumulative Risk Molecular Basis of Risk Assessment Comparative Risk Assessment Occupational Risk Radiological Risk Assessment Microbial Risk Assessment Children's Risk Assessment Life Cycle Risk Environmental Laws and Regulations Precautionary Principles Risk Communication Empowering Technology Lewis M. Branscomb, 1993 experts from Harvard's Center for Science and

International Affairs here examine a set of key issues and problems that taken together define the scope and limits of a technology policy *Conflicts Between Protected Species and Fisheries* Riku Varjopuro, 2003 **Fields of Knowledge**
Scott Frickel, David J. Hess, 2014-07-14 This issue of Political Power and Social Theory explores the changes in science associated with the rise of neoliberalism since the 1970s The collected papers together chart an important theoretical agenda for future research in the study of sciencesociety relations in the contemporary era
