Quantum Learning Bobbi De Porter & Mike Hernacki, **Quantum Learning & Instructional Leadership in Practice** John Parks Le Tellier, 2006-10-27 Take your leadership style to a whole new level Very powerful and user friendly If this book is carefully and intentionally implemented in schools student performance will improve and principals and teachers can help eliminate achievement gaps Steve Hutton Educational Consultant Villa Hills KY Even the best principals and teachers need additional inspiration and energy to motivate students and even themselves This inspiring handbook guides principals and teachers in upgrading their performance in the classroom and schoolwide Using evidence based strategies John Parks Le Tellier provides a catalog of practiced moves to help create an empowering classroom climate reinforce content and increase or sustain motivation Le Tellier offers four connections to becoming a highly effective leader The Context Connection creates the moves to establish empowering classroom context the Cognitive Connection updates educators on the latest breakthroughs in neuroscience the Character Connection establishes character education s importance to leadership practice and the Classroom Connection develops strategies for accelerating learning strengthening classroom management and upgrading energy Each chapter includes Leadership Notes that show you how specific moves can be used for Leadership initiatives Learn to Improve teaching effectiveness Improve student motivation Strengthen student character Implement and support leadership in the classroom Renew teachers energy and passion for their profession **The Burnout Cure** Chase Mielke, 2019-03-19 How can you energize yourself to maintain or regain a positive outlook and love of teaching What specific immediate actions can you take to enhance your well being and thrive both on and off the job Award winning teacher Chase Mielke draws from his own research lesson plans and experiences with burnout to help you change your outlook strengthen your determination to be a terrific teacher and reignite your core passion for teaching Often lighthearted yet thoroughly grounded in research on social emotional learning and positive psychology The Burnout Cure explains how shifts in awareness attitudes and actions can be transformational for you and for your students The book describes specific steps related to mindfulness empathy gratitude and altruism that you can use on your own and with students via classroom lessons and activities Equipped with these tools teachers can be their best so they can give their best to the learners in their care **Brain-based Learning with Class** Colleen Politano, Joy Paquin, 2000 In this book the authors have adapted Eric Jensen s 10 principles that need to be implemented in the classroom for a brain compatible approach to teaching and learning These principles include uniqueness emotions nutrition and elimination of threat The book also provides basic information about the brain ways to teach students about the brain and dozens of practical brain based activities for students of every age **Learning about Learning** Samuel A. Malone, 2003 Coverage includes educational psychology personal development accelerated learning study skills memory the brain nutrition and training and development *Learning Theories* Firend Al. R., 2019-06-01 The theories herewith are the most commonly discussed in educational

psychology textbooks and are studied by most students in schools of education The theories discussed in this book are applicable in real setting of higher education through a process of experimentation and practice The three main classifications of learning theories are behaviorism cognitivist and constructivism All of which provides a rubric and guideline for educators that help in the process of selecting teaching methodology techniques approaches strategies and tools Moreover only through practice an educator can develop a best practice that best fit the teacher student s relationship according to culture capacity of the learner learning styles and many other constraints and resources to be taken into consideration This book highlight the fact that certain theories and learning styles tend to be particularly important in international learning setting whereby students are culturally diverse and particularly if they are of High Context Societies as explained in this book

The Gospel of Education Martin Zschoche,2021-01-02 Re explore teaching from the depths of brain based accelerated learning research that reveals how students learn and respond to classroom environments and teacher interactions By creating a warm and welcoming atmosphere complete with music and fun your students learn how much you care for them and understand their needs Your words are powerful and everything you do or say sends a message consciously or non consciously to your students Through purposeful classroom management and choreographed instruction grab your students attention and keep them so focused there is no time to become distracted or misbehave By removing students fear factors and giving them leadership roles students take ownership of the classroom productively engaging with each other and learning deeply together Turn assessments into a joyful experience of profound learning Be that teacher the students remember fondly years after they leave school the one about whom they say We learned soooo much and we remember it
