E-Learning Paradigms and Applications Mirjana Ivanović,Lakhmi C. Jain,2013-12-05 Teaching and learning paradigms have attracted increased attention especially in the last decade Immense developments of different ICT technologies and services have paved the way for alternative but effective approaches in educational processes Many concepts of the agent technology such as intelligence autonomy and cooperation have had a direct positive impact on many of the requests imposed on modern e learning systems and educational processes This book presents the state of the art of e learning and tutoring systems and discusses their capabilities and benefits that stem from integrating software agents We hope that the presented work will be of a great use to our colleagues and researchers interested in the e learning and agent technology **The Chinese National Top Level Courses Project: Usign Open Educational Resources to Promote Quality in Undergraduate Teaching** Hklev Stian,2010 **Handbook of Research on Technologies for Improving the 21st Century Workforce: Tools for Lifelong Learning** Wang, Victor C.X.,2012-10-31 As the 21st century has seen lifelong learning has become more important as many countries have emerged into learning societies With these learning societies adult and community education along with new technologies play a major role in shaping and reshaping their economic political and cultural realities Handbook of Research on Technologies for Improving the 21st Century Workforce Tools for Lifelong Learning addresses how technologies impact the combination of workforce education and adult learning This comprehensive collection of research from leading authorities and front line faculty seeks to equip adult learners employees with the right knowledge and skills to continue to contribute to the economy given the importance of the essential role of technologies **Piece to Text on the Monument and One: Letters with the International Body Managers** Kiyoun Kim,2018-08-17 The aims of this book is clear and straightforward It was motivated to convert an inhumane or insipid experience with the various sources of global ranking into the kind of humanly and cultural experience within our daily

lifestyle Their outlook from presentation is masked with the number purely and perhaps through a myriad of complicated data or ranking information The concept or self identification within the experience or exposure would be less substantial or hard to get palpable My attempt to improve this aspect of contemporary practice certainly will fall short but you can sense in some paragraphs or titles I wrote this small piece of book in the end to take care of human integrity and stories for advancing the inherence and liveliness of interested actors or consumers despite all the wind heads from the turf of existing ranking sources

Handbook of Research on Managing and Designing Online Courses in Synchronous and Asynchronous Environments Durak, Gürhan,Çankaya, Serkan,2021-12-17 In order to be successful online learning should be planned systematically It can be said that offering distance education courses without preparation and knowledge about the theoretical background can cause drawbacks While distance education has become widespread and popular it is observed that there could be problems in its application Such problems can include technical problems inability to meet the learning needs at the learners own speeds lack of communication among learners and between learners and teachers and lack of quality materials appropriate for online learning or the inclusion of materials used in traditional methods directly into online learning For successful online courses these critical aspects of distance education are important and they should be taken into account by the institutions and the instructors offering online courses The Handbook of Research on Managing and Designing Online Courses in Synchronous and Asynchronous Environments provides up to date knowledge and experiences regarding technologies processes and environments for online course design in distance education systems and covers topics related to the aspects of successful distance education systems with a focus on teaching and learning in online environments Focusing on topics such as instructional design and integrated systems it is an ideal guide for online course designers instructional designers curricula developers administrators educators researchers trainers and students
