Nazi Culture Nazi Culture

Michael H. Kater

Nazi Culture Nazi Culture:

Nazi Culture George Lachmann Mosse, 2003 George L Mosse's extensive analysis of Nazi culture ground breaking upon its original publication in 1966 is now offered to readers of a new generation Selections from newspapers novellas plays and diaries as well as the public pronouncements of Nazi leaders churchmen and professors describe National Socialism in practice and explore what it meant for the average German Architecture and the Nazi Cultural Landscape David H. Haney, 2022-09-13 This book traces cultural landscape as the manifestation of the state and national community under the Nazi regime and how the Nazi era produced what could be referred to as a totalitarian cultural landscape For the Nazi regime cultural landscape was indeed a heritage resource but it was much more than that cultural landscape was the nation The project of Nazi racial purification and cultural renewal demanded the physical reshaping and reconceptualization of the existing environment to create the so called new Nazi cultural landscape One of the most important components of this was a set of monumental sites thought to embody blood and soil beliefs through the harmonious synthesis of architecture and landscape This special group of landscape bound architectural complexes was interconnected by the new autobahn highway system itself thought to be a monumental work embedded in nature Behind this intentionally aestheticized view of the nation as cultural landscape lay the all pervasive system of deception and violence that characterized the emerging totalitarian state This is the first historical study to consider the importance of these monumental sites together with the autobahn as evidence of key Nazi cultural and geographic strategies during the pre war years This book concludes by examining racial and nationalistic themes underlying cultural landscape concepts today against this historic background *Art, Ideology, and Economics in Nazi Germany* Alan E. Steinweis, 2017-11-01 From 1933 to 1945 the Reich Chamber of Culture exercised a profound influence over hundreds of thousands of German artists and entertainers Alan Steinweis focuses on the fields of music theater and the visual arts in this first major study of Nazi cultural administration examining a complex pattern of interaction among leading Nazi figures German cultural functionaries ordinary artists and consumers of culture Steinweis gives special attention to Nazi efforts to purge the arts of Jews and other so called undesirables Steinweis describes the political professional and economic environment in which German artists were compelled to function and explains the structure of decision making thus showing in whose interest cultural policies were formulated He discusses such issues as insurance minimum wage statutes and certification guidelines all of which were matters of high priority to the art professions before 1933 as well as after the Nazi seizure of power By elucidating the economic and professional context of cultural life Steinweis helps to explain the widespread acquiescence of German artists to artistic censorship and racial purification His work also sheds new light on the purge of Jews from German cultural life **Culture in Nazi Germany** Michael H. Kater, 2019-05-21 A much needed study of the aesthetics and cultural mores of the Third Reich rich in detail and documentation Kirkus Reviews Culture was integral to the smooth running of the Third Reich In the years preceding WWII a

wide variety of artistic forms were used to instill a Nazi ideology in the German people and to manipulate the public perception of Hitler's enemies. During the war, the arts were closely tied to the propaganda machine that promoted the cause of Germany's military campaigns. Michael H. Kater's engaging and deeply researched account of artistic culture within Nazi Germany considers how the German arts and letters scene was transformed when the Nazis came to power. With a broad purview that ranges widely across music, literature, film, theater, the press, and visual arts, Kater details the struggle between creative autonomy and political control as he looks at what became of German artists and their work both during and subsequent to Nazi rule. Absorbing, chilling study of German artistic life under Hitler. *The Sunday Times*. There is no greater authority on the culture of the Nazi period than Michael Kater, and his latest, most ambitious work gives a comprehensive overview of a dismally complex history, astonishing in its breadth of knowledge and acute in its critical perceptions. Alex Ross, music critic at *The New Yorker* and author of *The Rest is Noise*. Listed on *Choice's* Outstanding Academic Titles List for 2019. Winner of the Jewish Literary Award in Scholarship. **Art and the Nazis, 1933-1945** Arthur J. McLaughlin, Jr., 2022-01-07. This first comprehensive analysis of the Third Reich's efforts to confiscate, loot, censor, and influence art begins with a brief history of the looting of artworks in Western history. The artistic backgrounds of Adolf Hitler and Hermann Goering are examined along with the various Nazi art looting organizations and Nazi endeavors to both censor and manipulate the arts for propaganda purposes. Long-held beliefs about the Nazi destruction of degenerate art are examined, drawing on recently developed university databases, new translations of original documents, and recently discovered information. Theft and destruction of artworks by the Allies and looting by Soviet trophy brigades are also documented. **Jewish Art in Nazi Germany** Dana Smith, 2022-03-27. This book provides a social and cultural history of Jewish art in Nazi Germany, with a focus on the Jewish artists, art critics, and audiences in Nazi Bavaria. From the time of its conceptualization in the autumn of 1933 until its final curtain call in November 1938, the Jewish Cultural League in Bavaria sustained three departments: music, visual arts, and adult education. The Bavarian example steps outside the highly professional cultural milieu of Jewish Berlin and instead looks at relatively unknown efforts of Bavarian Jewish artists as they used art to define what it now meant to them to be Jewish under Nazism. Insightful and engaging, this book is ideal for advanced undergraduate students, graduate students, and scholars interested in social and cultural histories of Jews in Germany. *Nazi Propaganda Through Art and Architecture* Norman Ridley, 2024-07-30. When the Nazis came to power in January 1933, they began a program of transforming Germany from a democracy into a totalitarian state, but it was not a matter of simply enforcing compliance. The people had to be coaxed into believing in the new regime. Hearts and minds had to be won over, and one of the ways the Nazis did that was to create an ideal of German nationhood in which everyone could feel proud. This was especially the case with art, which came to be used as a powerful tool of propaganda, both to disseminate the myth amongst the population and indicate to the Nazi administrators the sort of cultural environment they should create. It was not an easy thing to do. While

the nation was being re created as a dynamic modern and powerful industrial giant all the signals coming from Hitler indicated that his own idyllic view of the German nation was of a traditional rural people deep rooted in a romantic mystical aesthetic Hitler s own experience as an artist in Vienna before the First World War had shown that while technically proficient his work was detached and impersonal Despite being rejected by the Vienna Academy of Fine Arts he continued to see himself as artistically gifted especially in the field of architecture This book looks at how the artistic side of Hitler s personality dominated Nazi aesthetics and the ways in which the Third Reich manipulated public opinion and advanced its political agenda using the power of art Despite his early setbacks Hitler always thought of himself first and foremost an artist He would frequently break off discussions with diplomats and soldiers to veer off on a lecture about his ideas on art and architecture which had been formed during his time in Vienna

Nazi Propaganda Through Art and Architecture explores how Hitler s artistic and architectural vision for Germany led to the monumental structures which we now associate with the Third Reich alongside the rural idyl he sought to espouse and how they came to symbolise the re emergent power of a German nation which would dominate Europe

Social Outsiders in Nazi Germany Robert Gellately, Nathan Stoltzfus, 2001-05-27 Sample Text

The Authority of Everyday Objects Paul Betts, 2004-06-09 From the Werkbund to the Bauhaus to Braun from furniture to automobiles to consumer appliances twentieth century industrial design is closely associated with Germany In this pathbreaking study Paul Betts brings to light the crucial role that design played in building a progressive West German industrial culture atop the charred remains of the past The Authority of Everyday Objects details how the postwar period gave rise to a new design culture comprising a sprawling network of diverse interest groups including the state and industry architects and designers consumer groups and museums as well as publicists and women s organizations who all identified industrial design as a vital means of economic recovery social reform and even moral regeneration These cultural battles took on heightened importance precisely because the stakes were nothing less than the very shape and significance of West German domestic modernity Betts tells the rich and far reaching story of how and why commodity aesthetics became a focal point for fashioning a certain West German cultural identity This book is situated at the very crossroads of German industry and aesthetics Cold War politics and international modernism institutional life and visual culture

Hitler and Nazi Germany Jackson J. Spielvogel, David Redles, 2020-05-05 Hitler and Nazi Germany A History is a brief but comprehensive survey of the Third Reich based on current research findings that provides a balanced approach to the study of Hitler s role in the history of the Third Reich The book considers the economic social and political forces that made possible the rise and development of Nazism the institutional cultural and social life of the Third Reich World War II and the Holocaust World War II and the Holocaust are presented as logical outcomes of the ideology of Hitler and the Nazi movement This new edition contains more information on the Kaiserreich Imperial Germany as well as Nazi complicity in the Reichstag Fire and increased discussion of consent and dissent during the Nazi attempt to create the ideal

Volksgemeinschaft people's community It takes a greater focus on the experiences of ordinary bystanders perpetrators and victims throughout the text includes more discussion of race and space and the final chapter has been completely revised Fully updated the book ensures that students gain a complete and thorough picture of the period and issues Supported by maps images and thoroughly updated bibliographies that offer further reading suggestions for students to take their study further the book offers the perfect overview of Hitler and the Third Reich
