Perception And Its Objects Reprint Edition By Brewer Bill 2013 Paperback:

Perception and its Objects Bill Brewer, 2013-03-07 Bill Brewer presents motivates and defends a bold new solution to a fundamental problem in the philosophy of perception What is the correct theoretical conception of perceptual experience and how should we best understand the most fundamental nature of our perceptual relation with the physical objects in the world around us Most theorists today analyse perception in terms of its representational content in large part in order to avoid fatal problems attending the early modern conception of perception as a relation with particular mind dependent objects of experience Having set up the underlying problem and explored the lessons to be learnt from the various difficulties faced by opposing early modern responses to it Bill Brewer argues that this contemporary approach has serious problems of its own Furthermore the early modern insight that perception is most fundamentally to be construed as a relation of conscious acquaintance with certain direct objects of experience is he claims perfectly consistent with the commonsense identification of such direct objects with persisting mind independent physical objects themselves Brewer here provides a critical historical account of the philosophy of perception in order to present a defensible vindication of empirical realism **Traditions and**

Pocket Maps and Public Poetry in the English Renaissance Katarzyna Lecky, 2019-04-17 Katarzyna Lecky explores how early modern British poets paid by the state adapted inclusive modes of nationhood charted by inexpensive small format maps She explores chapbooks cheapbooks by Edmund Spenser Samuel Daniel Ben Jonson William Davenant and John Milton alongside the portable cartography circulating in the same retail print industry Domestic pocket maps were designed for heavy use by a broad readership that included those on the fringes of literacy The era's de facto laureates all banked their success as writers appealing to this burgeoning market share by drawing the nation as the property of the commonwealth rather than the Crown This book investigates the accessible world of small format cartography as it emerges in the texts of the poets raised in the expansive public sphere in which pocket maps flourished It works at the intersections of space place and national identity to reveal the geographical imaginary shaping the flourishing business of cheap print Its placement of

poetic economies within mainstream systems of trade also demonstrates how cartography and poetry worked together to mobilize average consumers as political agents This everyday form of geographic poesis was also a strong platform for poets writing for monarchs and magistrates when their visions of the nation ran counter to the interests of the government

Pastoral Cosmopolitanism in Edith Wharton's Fiction Margarida Cadima,2023-07-11 American novelist Edith Wharton 1862 1937 is best known today for her tales of the city and the experiences of patrician New Yorkers in the Gilded Age This book pushes against the grain of critical orthodoxy by prioritizing other species of spaces in Wharton s work For example how do Wharton s narratives represent the organic profusion of external nature Does the current scholarly fascination with the environmental humanities reveal previously unexamined or overlooked facets of Wharton s craft I propose that what is most striking about her narrative practice is how she utilizes adapts and translates pastoral tropes conventions and concerns to twentieth century American actualities It is no accident that Wharton portrays characters returning to or exploring various natural localities such as private gardens public parks chic mountain resorts monumental ruins or country estate follies Such encounters and adventures prompt us to imagine new relationships with various geographies and the lifeforms that can be found there The book addresses a knowledge gap in Wharton and the environmental humanities especially recent debates in ecocriticism The excavation of Wharton s words and the background of her narratives with an eye to offering an ecocritical reading of her work is what the book focuses on

Angels Tapping at the Wine-Shop's Door Rudi Matthee,2023-04-20 Islam is the only major world religion that resists the juggernaut of alcohol consumption In many Islamic countries alcohol is banned in others it plays little role in social life Yet Muslims throughout history did drink often to excess whether sultans and shahs in their palaces or commoners in taverns run by Jews or Christians This evocative study delves into drinking s many historic literary and social manifestations in Islam going beyond references to hypocrisy or the temptations of forbidden fruit Rudi Matthee argues that alcohol through its absence as much as its presence takes us to the heart of Islam Exploring the long history of this faith from the eighth century Umayyad dynasty to Erdogan s Turkey and from Islamic Spain to modern Pakistan he unearths a tradition of diversity and multiplicity in which Muslims drank and found myriad excuses to do so They celebrated wine and used it as a poetic metaphor even viewing alcohol as a gift from God the key to unlocking eternal truth Drawing on a plethora of sources in multiple languages Matthee presents Islam not as an austere and uncompromising faith but as a set of beliefs and practices that embrace ambivalence allowing for ambiguity and even contradiction
