Subject Areas for Each of the Common Professional Component (CPC) Topics: Masters Level CPC-Based COMP Exams

Peregrine Academic Services provides online comprehensive exams for undergraduate, masters, and doctoral academic degree levels. We can customize and create specific assessment exams in addition to our existing business-related COMP exams. We can also work with you to develop business-related degree COMP exams specific to your specialized programs.

We use three distinct test banks for US-based business schools and programs based upon the academic level of the curriculum: Undergraduate (associates/bachelors), masters, and doctoral. For an associate degree CPC-based COMP Exam, school officials select which of the CPC Topics from the undergraduate list (usually 4-6) for a customized test.

The undergraduate test bank of questions is used for both associate and bachelors levels because the questions within the test bank are associated with foundational knowledge levels of the topic. Using the undergraduate test bank for both associate and bachelors level testing is an accreditation/articulation requirement for undergraduate transfer students completing a degree program at the associate level and continuing forward with a bachelors program.

There are two distinct test banks for international business schools and programs: undergraduate and graduate. The undergraduate test bank includes test questions suitable for associates and bachelors degree students. The graduate test bank includes questions appropriate for masters and doctoral level students.

We use unique material that is most appropriate for the academic degree level, with test banks specific for the associates/bachelors, masters, and doctoral levels. Using unique test content based on the student's degree level is an essential requirement for program-level accreditation.

Test banks include 200-400 questions per CPC topic. Every test is unique based upon a random selection from the test bank. The CPC-based COMP exams include 10 questions for each CPC topic. The CPC-based COMP exams are approved by the ACBSP for Standard #4 (Measurement and Analysis of Student Learning and Performance) and accepted by the IACBE for Principle #1 (Outcomes Assessment).

The CPC-based COMP exams function best when used as an inbound/outbound direct measure assessment tool. Students take the inbound exam at the start of their business program. Students re-take the same exam at the end of the program. The difference in scores is a direct measure of learning. The cumulative difference in scores is your direct measure of learning success at the program level.

We can customize our comprehensive exams to address your specific direct measurement requirements, both business and business-related degrees. We can expand a specific CPC topic, create new topics, or we can delete topics from your customized COMP exam test banks.

Inbound/outbound assessment programs fulfill your internal benchmarking needs. Total scores compare your students with national standards. We can also compare your student results with other similar schools for external benchmarking.

The following is a list of the specific test question subjects and content areas included within each of the CPC topics for program-level assessment with **Masters (MBA, MS, or MA)** programs.
