The Postcolonial Museum Iain Chambers, Alessandra De

Angelis,Celeste Ianniciello,Mariangela Orabona,2016-02-17 This book examines how we can conceive of a postcolonial museum in the contemporary epoch of mass migrations the internet and digital technologies The authors consider the museum space practices and institutions in the light of repressed histories sounds voices images memories bodies expression and cultures Focusing on the transformation of museums as cultural spaces rather than physical places is to propose a living archive formed through creation participation production and innovation The aim is to propose a critical assessment of the museum in the light of those transcultural and global migratory movements that challenge the historical and traditional frames of Occidental thought This involves a search for new strategies and critical approaches in the fields of museum and heritage studies which will renew and extend understandings of European citizenship and result in an inevitable re evaluation of the concept of modernity in a so called globalised and multicultural world *The Routledge Handbook of Heritage and Gender* Jenna C. Ashton,2025-05-30 The Routledge Handbook of Heritage and Gender offers an exceptional range of international contributions that interrogate and analyse the interactions within and between heritage and gender Taking an intersectional and global approach the Handbook opens up space for a more critical and situated consideration of how gender comes into contact with heritage as a concept and practice The volume considers heritage in the broadest sense as a concept performance and materialisation The contributions also consider how heritage impacts identity power people values politics and ethics as well as processes and sites across material culture nature and intangible practices The volume and its contributions are inclusive of cisgender trans non binary agender and intersex identities Reflecting the multidisciplinary and transnational voices of its authors the collection challenges readers to consider what a focused analysis of heritage and gender can offer heritage studies as an evolving discipline and field of study The Routledge Handbook of Heritage and Gender will be of interest to academics and students working in Heritage Studies Museum Studies Art History History Anthropology Gender and Women s Studies and International Development **Modes and Meaning: Displays of Evidence in Education** Geert Thyssen,Karin Priem,2018-02-02 In the past few decades there has been a growing interest and debate amongst historians of education surrounding issues of visibility materiality spatiality transfer and circulation This collection of essays with its focus on the interaction between ideas images objects and or spaces that contain an educational dimension is a contribution to this ongoing debate The contributors address how meaning is created conveyed and transformed through multiple modes of communication representation and interaction through movement across spaces through media and technologies and through collective memory and identity making The collection demonstrates that meaning is mobilized through multimodality translocation technology and heritage and that it assumes different qualities which need to be reflected upon in the history of education in particular and in education research in general This book was originally published as a special issue of Paedagogica Historica *Researching Popular Entertainment* Kim Baston,Jason Price,2024-12-27 Researching Popular Entertainment is an essential volume for scholars delving into the vibrant yet complex

world of popular entertainment Written by a global network of experts this book addresses the unique challenges researchers face in this field The often dismissed status of popular entertainment coupled with its reliance on physicality and improvisation over scripted performances has meant archival and textual sources tend to be more limited than in related theatre and performance disciplines This scarcity requires historians to find alternative pathways through the available materials to recuperate seemingly insignificant figures and performance forms from our cultural past This book provides a candid look into the research processes of its authors highlighting some of the approaches they have adopted to overcome these challenges It emphasises that reading performance as entertainment is a deliberate methodological choice Regardless of whether a work is deemed high or low art legitimate or illegitimate understanding how it captivates its audience is central to the study of entertainment Readers will benefit from its in depth analysis and practical guidance making it an indispensable resource for anyone studying popular entertainment
