Bowker's Guide to Characters in Fiction 2007 ,2008-02 **Cassette Books** Library of Congress. National Library Service for the Blind and Physically Handicapped,1999 *Ancient Pathways, Ancestral Knowledge* Nancy J. Turner,2014-06-01 Volume 1 The History and Practice of Indigenous Plant Knowledge Volume 2 The Place and Meaning of Plants in Indigenous Cultures and Worldviews Nancy Turner has studied Indigenous peoples knowledge of plants and environments in northwestern North America for over forty years In *Ancient Pathways Ancestral Knowledge* she integrates her research into a two volume ethnobotanical tour de force Drawing on information shared by Indigenous botanical experts and collaborators the ethnographic and historical record and from linguistics palaeobotany archaeology phytogeography and other fields Turner weaves together a complex understanding of the traditions of use and management of plant resources in this vast region She follows Indigenous inhabitants over time and through space showing how they actively participated in their environments managed and cultivated valued plant resources and maintained key habitats that supported their dynamic cultures for thousands of years as well as how knowledge was passed on from generation to generation and from one

community to another To understand the values and perspectives that have guided Indigenous ethnobotanical knowledge and practices Turner looks beyond the details of individual plant species and their uses to determine the overall patterns and processes of their development application and adaptation Volume 1 presents a historical overview of ethnobotanical knowledge in the region before and after European contact The ways in which Indigenous peoples used and interacted with plants for nutrition technologies and medicine are examined Drawing connections between similarities across languages Turner compares the names of over 250 plant species in more than fifty Indigenous languages and dialects to demonstrate the prominence of certain plants in various cultures and the sharing of goods and ideas between peoples She also examines the effects that introduced species and colonialism had on the region s Indigenous peoples and their ecologies Volume 2 provides a sweeping account of how Indigenous organizational systems developed to facilitate the harvesting use and cultivation of plants to establish economic connections across linguistic and cultural borders and to preserve and manage resources and habitats Turner describes the worldviews and philosophies that emerged from the interactions between peoples and plants and how these understandings are expressed through cultures stories and narratives Finally she explores the ways in which botanical and ecological knowledge can be and are being maintained as living adaptive systems that promote healthy cultures environments and indigenous plant populations Ancient Pathways Ancestral Knowledge both challenges and contributes to existing knowledge of Indigenous peoples land stewardship while preserving information that might otherwise have been lost Providing new and captivating insights into the anthropogenic systems of northwestern North America it will stand as an authoritative reference work and contribute to a fuller understanding of the interactions between cultures and ecological systems
