Perfect Being Theology Reason And Religion Eup:

Perfect Being Theology Katherin A Rogers,2019-08-07 That being than which a greater cannot be conceived This was the way in which the living God of biblical tradition was described by the great Medieval philosophers such as Augustine Anselm and Aquinas Contemporary philosophers find much to question criticise and reject in the traditional analysis of that description Some hold that the attributes traditionally ascribed to God simplicity necessity immutability eternity omniscience omnipotence creativity and goodness are inherently incoherent individually or mutually inconsistent Others argue that the divinity described by philosophers cannot be the same as the providential God of revelation In *Perfect Being Theology* Katherin A Rogers defends the traditional approach considering contemporary criticisms but concluding that the most adequate account of the nature of God should build upon the foundation laid by the Medieval philosophers Written in a lively and accessible style and offering an important historical perspective this book covers key areas of contention and many of the major ideas and thinkers from all sides of the debate are included

God and Necessity Brian Leftow,2012-09-06 Brian Leftow offers a theory of the possible and the necessary in which God plays the chief role and a new sort of argument for God's existence It has become usual to say that a proposition is possible just in case it is true in some possible world roughly some complete history a universe might have and necessary just if it is true in all Thus much discussion of possibility and necessity since the 1960s has focussed on the nature and existence or not of possible worlds *God and Necessity* holds that there are no such things nor any sort of abstract entity It assigns the metaphysical work such items usually do to God and events in God's mind and reduces broadly logical modalities to causal modalities replacing possible worlds in the semantics of modal logic with God and His mental events Leftow argues that theists are committed to theist modal theories and that the merits of a theist modal theory provide an argument for God's existence Historically almost all theist modal theories base all necessary truth on God's nature Leftow disagrees he argues that necessary truths about possible creatures and kinds of creatures are due ultimately to God's unconstrained imagination and choice On his theory it is in no sense part of the nature of God that normal zebras have stripes if that is a necessary truth Stripy zebras are simply things God thought up and they have the nature they do simply because that is how God thought of them Thus Leftow's essay in metaphysics takes a half step toward Descartes view of modal truth and presents a compelling theist theory of necessity and possibility

Humanism and Religion Jens Zimmermann,2012-01-26 Jens Zimmermann suggests that the West can rearticulate its identity and renew its cultural purpose by recovering the humanistic ethos that originally shaped Western culture He traces the religious roots of humanism and combines humanism religion and hermeneutic philosophy to re imagine humanism for our current cultural and intellectual climate

Analytic Theology and the Academic Study of Religion William Wood,2021 Analytic theology is a legitimate form of theology and a legitimate form of academic inquiry and it can be a valuable conversation partner within the wider religious studies academy William Wood defends analytic theology from some common criticisms but also

argues that analytic theologians have much to learn from other forms of inquiry *Reimagining Philosophy of Religion*
 Amber L. Griffioen, 2025-10-02 By exploring how analytic philosophy of religion can expand its horizons to combat old biases
 Amber L. Griffioen's new book argues for reorientations in the discipline aimed at transforming it into a field that is
 simultaneously theoretically rigorous, socially relevant, and inclusive of traditionally marginalized voices and perspectives.
 Drawing on diverse philosophical resources including social epistemology, philosophy of science, feminist philosophy, and
 philosophy of sport, as well as on perspectives from theology, religious studies, psychology, medieval mysticism, and the arts,
 Griffioen brings the practical and imaginative aspects of religion to the fore as objects for philosophical reflection. Chapters
 include discussions of topics such as theological realism, religious epistemology, theistic faith, the religious imagination, and
 theodicy and the problem of evil. Ultimately, Griffioen argues for a doxastically permissive approach to religion as a form of
 earnest play, one compatible with belief but not requiring it. Presenting traditional debates together with a consideration of
 their limits and proposing alternative approaches that promise to move the discipline forward in exciting ways, Griffioen's
 book is an essential resource for any scholar or student of philosophy of religion *Routledge Encyclopedia of Philosophy:*
Index Edward Craig, 1998 Volume seven of a ten-volume set which provides full and detailed coverage of all aspects of
 philosophy, including information on how philosophy is practiced in different countries, who the most influential philosophers
 were, and what the basic concepts are **Theology, University, Humanities** Christopher Craig Brittain, Francesca Aran
 Murphy, 2011-07-01 This book discusses the relationship between theology and the humanities and their shared significance
 within contemporary universities. Taking up this complex question, twelve scholarly authors analyze the connections between
 theology and philosophy, history, scholarly literature, sociology, and law. Cumulatively, these essays make a case for the
 importance of reflecting on what binds the humanities and theology together. By meditating on ultimate theological questions,
 this book brings the issue of the meaning and purpose of university education into a new light, exploring its deep significance
 for academic pursuits today **Contemporary Philosophical Theology** Charles Taliaferro, Chad Meister, 2016-06-10 In
Contemporary Philosophical Theology, Charles Taliaferro and Chad Meister focus on key topics in contemporary philosophical
 theology within Christianity, Islam, and Judaism, as well as Hinduism and Buddhism. The volume begins with a discussion of
 key methodological tools available to the philosophical theologian, such as faith and reason, science and religion, revelation
 and sacred scripture, and authority and tradition. The authors use these tools to explore subjects including language,
 ineffability, miracles, evil, and the afterlife. They also grapple with applied philosophical theology, including environmental
 concerns, interreligious dialogue, and the nature and significance of political values. A concluding discussion proposes that
 philosophical theology can contribute to important reflections and action concerning climate change **Divine Providence**
and Human Agency Alexander S. Jensen, 2016-05-13 *Divine Providence and Human Agency* develops an understanding of
 God and God's relation to creation that perceives God as sovereign over creation while, at the same time, allowing for a

meaningful notion of human freedom This book provides a bridge between contemporary approaches that emphasise human freedom such as process theology and those influenced by it and traditional theologies that stress divine omnipotence This book argues that it is essential for Christian theology to maintain that God is ultimately in charge of history otherwise there would be no solid grounds for Christian hope Yet the modern human self understanding as free agent within certain limitations must be taken seriously Jensen approaches this apparent contradiction from within a consistently trinitarian framework Jensen argues that a Christian understanding of God must be based on the experience of the saving presence of Christ in the Church leading to an apophatic and consistently trinitarian theology This serves as the framework for the discussion of divine omnipotence and human freedom On the basis of the theological foundation established in this book it is possible to frame the problem in a way that makes it possible to live within this tension Building on this foundation Jensen develops an understanding of history as the unfolding of the divine purpose and as an expression of God s very being which is self giving love and desire for communion This book offers an important contribution to the debate of the doctrine of God in the context of an evolutionary universe God, Passibility and Corporeality Marcel Sarot,1992 Peeters 1992
