Bradley Bassler, 2022-09-26 Many philosophical accounts of reason are geared toward providing rational justifications ex post facto rather than accounting for the role reason plays in actu in the process of creative work Moreover when in actu accounts of reason are given they are usually too narrow to describe the sort of high level creative work that is involved in the composition of poetry or the creation of a scientific theory This book suggests that the rudiments of a broader account are found in various German Idealist figures most notably the philosopher novelist critic Friedrich Schlegel and the philosophical poet and novelist Friedrich Hlderlin However German Idealism generally is subject to Hans Blumenberg s secularization critique which provides a strong prima facie argument that the accounts of poetic reason suggested by Schlegel and Hlderlin are indefensible This book argues that confronting Blumenberg s secularization critique and his associated legitimation of modernity with a romantic conception of poetic reason requires revisions on both sides and that the work of Lacan is especially well suited to provide the conditions upon which a legitimation of poetic reason can be provided **The Cambridge Handbook of Western Mysticism and Esotericism** Glenn Alexander Magee, 2016-04-18 Mysticism and esotericism are two intimately related strands of the Western tradition Despite their close connections however scholars tend to treat them separately Whereas the study of Western mysticism enjoys a long and established history Western esotericism is a young field The Cambridge Handbook of Western Mysticism and Esotericism examines both of these traditions together The volume demonstrates that the roots of esotericism almost always lead back to mystical traditions while the work of mystics was bound up with esoteric or occult preoccupations It also shows why mysticism and esotericism must be examined together if either is to be understood fully Including contributions by leading scholars this volume features essays on such topics as alchemy astrology magic Neoplatonism Kabbalism Renaissance Hermetism Freemasonry Rosicrucianism numerology Christian theosophy spiritualism and much more This Handbook serves as both a capstone of contemporary scholarship and a cornerstone of future research **Новая духовность** Джид Парма, 2011 American Book Publishing Record , 2005
