nationalism identity and the relation between Islam and modern politics sheds new light on the factors that led to the Iranian Revolution the twentieth century's first major departure from Western political ideals and helps explain the complexities surrounding the reception of Western ideologies in the Middle East *Constructing Identity in Iranian-American Self-Narrative* M. Blaim, Amnon Sella, 2015-02-11 Shaped by the experiences of the Iranian Revolution Iranian American autobiographers use this chaotic past to tell their current stories in the United States Wagenknecht analyzes a wide range of such writing and draws new conclusions about migration exile and life between different and often clashing cultures

Iranian Classical Music Laudan Nooshin, 2017-03-02 Questions of creativity and particularly the processes which underlie creative performance or improvisation form some of the central areas of interest in current musicology Yet the predominant discourses on which musicological thought in this area are based have rarely been challenged In this book Laudan Nooshin interrogates musicological discourses of creativity from the perspective of critical theory and postcolonial studies examining their ideological underpinnings the relationships of alterity which they sustain and the profound implications for our understanding of creative processes in music The repertoire which forms the book's main focus is Iranian classical music a tradition in which the performer plays a central creative role Addressing a number of issues regarding the nature of musical creativity the author explores both the discourses through which ideas about creativity are constructed exchanged and negotiated within this tradition and the practice by which new music comes into being For the latter she compares a number of performances by musicians playing a range of instruments and spanning a period of more than 30 years focusing on one particular section of repertoire dastg h Seg h and providing transcriptions of the performances as the basis for analytical exploration of the music's underlying compositional principles This book is about understanding musical creativity as a meaningful social practice It is the first to examine the ways in which ideas about tradition authenticity innovation and modernity in Iranian classical music form part of a wider social discourse on creativity and in particular how they inform debates regarding national and cultural identity **Iranian Elites and Turkish Rulers** David

Durand-Guedy, 2020-04-29 The Saljuq period of the eleventh and twelfth centuries saw the arrival in Iran of Turkmen nomads from Central Asia and the beginning of Turkish rule Through the example of the city of Isfahan the book analyses the internal evolution of Iranian society in this period and the interaction of the Iranian elites and Turkish rulers Drawing on an analysis of a wide range of sources including poetic and epistolary material this study fills an historiographical gap and casts new light on the two centuries prior to the Mongol invasion This comprehensive analytical study provides a new contribution to the understanding of many crucial issues the cultural divide between Western and Eastern Iran the military potential of city dwellers the attitude of the Turkish rulers toward cities and city life the action of the famous vizier Nizam al Mulk the meaning of the Ismaili uprising and above all the structure of the local elite organized into rival networks and largely autonomous vis vis state powers The study is enhanced by a variety of additional features including extensive genealogical

tables Arabic script and maps Providing a new understanding of the cultural identity of Iran this book is an important contribution to the study of the history of Iran and the Medieval period **String Processing and Information Retrieval** Fabio Crestani, Paolo Ferragina, Mark Sanderson, 2006-09-29 This book constitutes the refereed proceedings of the 13th International Conference on String Processing and Information Retrieval SPIRE 2006 The 26 revised full papers and 5 revised short papers presented together with 2 invited talks were carefully reviewed and selected The papers are organized in topical sections on Web clustering and text categorisation strings user behaviour Web search algorithms compression correction information retrieval applications bio informatics and Web search engines **Iranian Cities** Masoud Kheirabadi, 2000-07-01 Exploring the rationale behind the physical structure and spatial patterns of traditional Iranian cities this study examines cities built before the general modernization of Iran that began after World War II in the light of specifically Iranian environmental factors History of Iranian Literature J. Rypka, 2013-11-11 Some justification seems to be necessary for the addition of yet another History of Iranian Literature to the number of those already in existence Such a work must obviously contain as many novel features as possible so that a short explanation of what my collaborators and I had in mind when planning the book is perhaps not superfluous In the first place our object was to present a short summary of the material in all its aspects and secondly to review the subject from the chronological geo graphical and substantial standpoints all within the compass of a single volume Such a scheme precludes a formal and complete enumeration of names and phenom ena and renders all the greater the obligation to accord most prominence to matters deemed to be of greatest importance supplementing these with such figures and forms as will enable an impression to be gained of the period in question all this is far as possible in the light of the most recent discoveries A glance at the table of contents will suffice to give an idea of the multifarious approach that has been our aim We begin at the very first traces of evidence bearing on our subject and continue the narrative up to the present day Geographically the book embraces Iran and its neighbouring countries while it should be remarked that Iranian literature in its fullest sense also includes Indo Persian and Judeo Persian works
