Cell Separation Derek Fisher, Gillian E. Francis, David Rickwood, 1998-11-26 Techniques for separating cells are needed in many areas of cell biology This book presents modern methods from the laboratories of experts in the field and includes tested reproducible protocols hints and tips for success and troubleshooting suggestions It will be invaluable to a wide range of cell biologists

Regional Opioid Analgesia J. de Castro, J. Meynadier, Michael Zenz, 2012-12-06 by E K ZSIGMOND M D Department of Anesthesiology University of Illinois Chicago U S A It is indeed a distinct honor and privilege to be invited by the authors to write a preface to this monumental monograph Regional Opioid Analgesia Regional Opioid Analgesia is a colossal undertaking by Drs De Castro Meynadier and Zenz shortly after the introduction of this revolutionary approach to pain relief which opened a new epoch in analgesiology This is indeed the first authentic and comprehensive textbook encompassing the current knowledge on this novel approach to pain relief We are

indebted to the authors for introducing the new opioids to regional analgesia with the scientists who developed the potent short and ultrashort acting opioids with high therapeutic indices which many researchers dreamt about but never before materialized. The side effect liabilities of these new opioids are minute as compared to morphine and meperidine. Regional Opioid Analgesia could not have been more authentically written than by Drs De Castro Zenz and Meynadier who have conducted daily clinical investigations on all known opioids for regional analgesia as well as for neurolept analgesia. Therein lies the great value of this monograph; it is the most authentic work on this topic. Biomedical Engineering Perspectives IEEE Engineering in Medicine and Biology Society.
