Pericles Of Athens And The Birth Of Democracy

Donald Kagan

Pericles Of Athens And The Birth Of Democracy:

Pericles Of Athens And The Birth Of Democracy Donald Kagan, 1991 A biography of Greek statesman Pericles focusing on the creation of Greek democracy in his time *Pericles of Athens and the Birth of Democracy* Donald Kagan, 1991 An incisive portrait of Pericles is set against the shifting political trends international tensions and intellectual movements of the ancient Greek civilization *Encyclopedia of Ancient Greece* Nigel Wilson, 2013-10-31 Examining every aspect of the culture from antiquity to the founding of Constantinople in the early Byzantine era this thoroughly cross referenced and fully indexed work is written by an international group of scholars This Encyclopedia is derived from the more broadly focused Encyclopedia of Greece and the Hellenic Tradition the highly praised two volume work Newly edited by Nigel Wilson this single volume reference provides a comprehensive and authoritative guide to the political cultural and social life of the people and to the places ideas periods and events that defined ancient Greece *What's Wrong with Democracy?* Loren J. Samons, 2007-04-23 This is unlike any recent work I know of It offers a challenging often refreshing and what will certainly be a controversial assessment of classical Athenian democracy and its significance to modern America Samons is willing to tread where few other classicists are willing to go in print He reminds readers that the Athenian democracy offers just as many negative lessons as positive ones and topics like the popular vote the dangers of state payments to individual citizens the naturally acquisitive foreign policy of democratic governments and the place of religion in democracy all come up for discussion and criticism Samons has written an original and very provocative book James Sickinger author of *Public Records and Archives in Classical Athens* Professor Samons lively and challenging account of ancient Athens raises important questions about democracy ancient and modern It will surely arouse keen interest and debate Donald Kagan author of *The Peloponnesian War* In this elegantly written carefully researched and perceptive book Samons presents a penetrating analysis of ancient Athenian democracy s dark sides His book is as much about the errors and weaknesses of our own political system as it is about those of ancient Athens Whether or not we agree with his critique and conclusions this book is not merely thought provoking it is annoyingly discomfiting forcing us to re examine firm beliefs and to discard easy solutions Kurt A Raaflaub author of *Discovery of Freedom in Ancient Greece* In this marvelously unfashionable book Samons debunks much of what passes in the current day academy as scholarship on classical Athens demonstrating that it is an ideologically driven apology for a radically defective form of government In the process he casts light on the perspicacity of America s founding fathers and on the unthinking populism that threatens in our own day to ruin their legacy Paul A Rahe author of *Republics Ancient and Modern Classical Republicanism and the American Revolution* We are in the greatest age of democracy since antiquity and in the most need of guidance about the wisdom of government by majority vote Precisely for that reason Professor Samons offers a bold and unbridled look at the nature and history of democracies ancient and modern He reminds us that we are capable of doing as much evil as good when constitutional protections and republican oversight

are not there to moderate the instant desires of the majority This is an engaging provocative and timely study of ancient Athens and modern America that should serve as a cautionary reminder to both romantic scholars and zealous diplomats Victor Davis Hanson author of *The Other Greeks* **Thucydides on the Outbreak of War** S. N. Jaffe, 2017-02-23 The cause of great power war is a perennial issue for the student of politics Some 2 400 years ago in his monumental *History of the Peloponnesian War* Thucydides wrote that it was the growth of Athenian power and the fear that this power inspired in Sparta which rendered the Peloponnesian War somehow necessary inevitable or compulsory In this new political psychological study of Thucydides first book S N Jaffe shows how the *History* s account of the outbreak of the war ultimately points toward the opposing characters of the Athenian and Spartan regimes disclosing a Thucydidean preoccupation with the interplay between nature and convention Jaffe explores how the character of the contest between Athens and Sparta or how the outbreak of a particular war can reveal Thucydides account of the recurring human causes of war and peace The political thought of Thucydides proves bound up with his distinctive understanding of the interrelationship of particular events and more universal themes **A History of Ancient Greece in Fifty Lives** David Stuttard, 2014-09-08 The political leaders writers artists and philosophers of ancient Greece turned a few city states into a pan Mediterranean civilization But who were these people what do we know of their lives and how did they interact with one another This highly readable original new approach to telling the history of Greece weaves together the lives of the movers and shakers of the Greek world into a continuous narrative up until the rise of Rome From mathematics to politics from painting and sculpture to sport the reader will meet both the famous and less well known figures such as Milo the Olympic wrestler Aspasia the brilliant female intellectual Zeuxis the painter who invented trompe l oeil and Epaminondas who taught tactics to Philip of Macedon David Stuttard has written numerous books on the Classical world including *The Parthenon Power and Politics on the Acropolis*

[Encyclopedia of Greece and the Hellenic Tradition](#) Graham Speake, 2021-01-31 Hellenism is the living culture of the Greek speaking peoples and has a continuing history of more than 3 500 years The *Encyclopedia of Greece and the Hellenic Tradition* contains approximately 900 entries devoted to people places periods events and themes examining every aspect of that culture from the Bronze Age to the present day The focus throughout is on the Greeks themselves and the continuities within their own cultural tradition Language and religion are perhaps the most obvious vehicles of continuity but there have been many others law taxation gardens music magic education shipping and countless other elements have all played their part in maintaining this unique culture Today Greek arts have blossomed again Greece has taken its place in the European Union Greeks control a substantial proportion of the world s merchant marine and Greek communities in the United States Australia and South Africa have carried the Hellenic tradition throughout the world This is the first reference work to embrace all aspects of that tradition in every period of its existence **World History Encyclopedia [21 volumes]** Alfred J. Andrea Ph.D., 2011-03-23 An unprecedented undertaking by academics reflecting an extraordinary vision of world

history this landmark multivolume encyclopedia focuses on specific themes of human development across cultures era by era providing the most in depth expansive presentation available of the development of humanity from a global perspective Well known and widely respected historians worked together to create and guide the project in order to offer the most up to date visions available A monumental undertaking A stunning academic achievement ABC CLIO s World History Encyclopedia is the first comprehensive work to take a large scale thematic look at the human species worldwide Comprised of 21 volumes covering 9 eras an introductory volume and an index it charts the extraordinary journey of humankind revealing crucial connections among civilizations in different regions through the ages Within each era the encyclopedia highlights pivotal interactions and exchanges among cultures within eight broad thematic categories population and environment society and culture migration and travel politics and statecraft economics and trade conflict and cooperation thought and religion science and technology Aligned to national history standards and packed with images primary resources current citations and extensive teaching and learning support the World History Encyclopedia gives students educators researchers and interested general readers a means of navigating the broad sweep of history unlike any ever published *The Birth of Politics* Melissa Lane,2016-08-16 First published in the United Kingdom as Greek and Roman political ideas a Pelican introduction by the Penquin Group Penguin Books London T p verso *The Causes of War* Alexander Gillespie,2013-10-16 This is the first volume of a projected four volume series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer and using as its principal materials the documentary history of international law largely in the form of treaties and the negotiations which led up to them These volumes seek to show why millions of people over thousands of years slayed each other In departing from the various theories put forward by historians anthropologists and psychologists Gillespie offers a different taxonomy of the causes of war focusing on the broader settings of politics religion migrations and empire building These four contexts were dominant and often overlapping justifications for the first four thousand years of human civilisation for which written records exist

Whispering the Techniques of Language: An Psychological Journey through **Pericles Of Athens And The Birth Of Democracy**

In a digitally-driven earth wherever monitors reign supreme and quick conversation drowns out the subtleties of language, the profound strategies and psychological nuances concealed within words frequently go unheard. Yet, nestled within the pages of **Pericles Of Athens And The Birth Of Democracy** a fascinating fictional value blinking with natural emotions, lies an extraordinary quest waiting to be undertaken. Written by a talented wordsmith, this wonderful opus attracts visitors on an introspective journey, lightly unraveling the veiled truths and profound affect resonating within the cloth of each and every word. Within the mental depths of this emotional evaluation, we can embark upon a sincere exploration of the book is core subjects, dissect its fascinating writing style, and succumb to the powerful resonance it evokes strong within the recesses of readers hearts.
