Performing Beethoven Cambridge Studies In Performance Practice:

Performing Beethoven Robin Stowell, 1994-09-08 The ten essays in this volume explore different aspects of the performance of instrumental works by Beethoven Each essay discusses performance issues from Beethoven's time to the present whether the objective be to realise a performance in an historically appropriate manner to elucidate the interpretation of Beethoven's music by conductors and performers to clarify transcriptions by editors or to reconstruct the experience of the listener in various different periods Four contributions focus on the piano music while another group concentrates on Beethoven's music for strings These chapters are complemented by an examination of Beethoven's exploitation of the developing wind choir an evaluation of early twentieth century recordings as pointers to early nineteenth century performance practice and an historical survey of rescorings in Beethoven's symphonies *Franz Schubert's Music in Performance* David Montgomery, 2003 In *Franz Schubert's Music in Performance* David Montgomery challenges many operative myths about the music of this great but often misunderstood Viennese master Chief among them is the lingering notion that Schubert was poorly trained but still managed to turn out brilliant if often flawed scores Modern adherents of this view believe that Schubert could not notate his own musical wishes accurately and that he was principally a creature of intuition Accordingly musicians might allow themselves wide intuitive leeway in the interpretation of his music Another myth challenged by Montgomery is that Schubert was a conservative or perhaps even a chronological throwback Opposing recent attempts to legitimize performer generated embellishment of Schubert's music in the style of the eighteenth century He clarifies Schubert's contributions to the radical intellectualism of nineteenth century romanticism The book offers six informative chapters ranging from aesthetics and acoustics to the specifics of tempo and expression plus an appendix of pertinent Viennese pedagogical sources In addition to many years of musicological research Montgomery brings long experience as a concertizing pianist and conductor to this engaging and controversial work Sourcebook for Research in Music, Third Edition Allen Scott, 2015-06-01 Since it was first published in 1993 the *Sourcebook for Research in Music* has become an invaluable resource in musical scholarship The balance between depth of content and brevity of format makes it ideal for use as a textbook for students a reference work for faculty and professional musicians and as an aid for librarians The introductory chapter includes a comprehensive list of bibliographical terms with definitions bibliographic terms in German French and Italian and the plan of the Library of Congress and the Dewey Decimal music classification systems Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items this updated and expanded edition accounts for the rapid growth in new editions of standard works in fields such as ethnomusicology performance practice women in music popular music education business and music technology These enhancements to its already extensive bibliographies ensures that the *Sourcebook* will continue to be an indispensable reference for years to come *String teaching in 21st Century: Bridges between research and practice* Clarissa Foletto ,Jorge Alves ,Dora de

Queiroz ,2021-01-01 The 48th International ESTA Conference marked the first Online conference in the history of ESTA The conference theme Bridges between research and practice encouraged the teachers students and researchers of the ESTA family and abroad to reflect and discuss String teaching in 21st Century The 21 articles published in this book show how we can join forces to create develop and disseminate our collective knowledge and experience about string teaching We hope that this book can be a contribution by ESTA Portugal to this field and an attempt to fill the gap between research and practice Full access <https://doi.org/10.26537/eipp.75>
