8. Did Darwin first believe that each finch he found was a different species? Was he right or wrong?

At first, Darwin thought that each finch he found was a different species, however, he was wrong.

They were actually all the same species of finch that had evolved over time to be very unique!

They were blown off course from South America

Site 4: http://www.biology-online.org/2/12_selective_breeding.htm

7. What does it mean to selectively breed an organism?

Choose only individuals with the features that you want to reproduce and do not allow the others to reproduce and pass on genes that are not desirable.
