Pakistan Between Mosque And Military:

Pakistan Husain Haqqani, 2010-03-10 Among U S allies in the war against terrorism Pakistan cannot be easily characterized as either friend or foe Nuclear armed Pakistan is an important center of radical Islamic ideas and groups Since 9 11 the selective cooperation of president General Pervez Musharraf in sharing intelligence with the United States and apprehending al Qaeda members has led to the assumption that Pakistan might be ready to give up its longstanding ties with radical Islam But Pakistan s status as an Islamic ideological state is closely linked with the Pakistani elite s worldview and the praetorian ambitions of its military This book analyzes the origins of the relationships between Islamist groups and Pakistan s military and explores the nation s quest for identity and security Tracing how the military has sought U S support by making itself useful for concerns of the moment while continuing to strengthen the mosque military alliance within Pakistan Haqqani offers an alternative view of political developments since the country s independence in 1947 **Pakistan** Husain Haqqani, 2005 This book analyzes the origins of the relationships between Islamist groups and Pakistan s military and explores Pakistan s quest for identity and security Tracing how the Pakistani military has sought U S support by making itself useful for concerns of the moment author Husain Haqqani offers an alternative view of political developments in Pakistan since the country s independence in 1947 Provided by publisher **The Military Factor in Pakistan** Ravi Shekhar Narain Singh Singh, 2008 Pakistan s politics governance institutional capacities internal and external security and the nation building process are at a critical juncture The stance of the military thus will be a critical factor in determining the future course of Pakistan Under the prevailing scenario in the country any elected government would need to reestablish the viability and vitality of the state Should it fail the army would be compelled to intervene to save the country from falling apart For an objective and in depth analysis as to how Pakistan has arrived at this critical juncture it is important to delve into the personalities and processes that have shaped the destiny of the country The future of Pakistan is dependent on the flux and interplay of the internal and external processes and compulsions This book therefore traces the military underpinnings in the political geopolitical strategic economic religious sociological and sectarian journey that Pakistan has made over the last sixty years Islamic Politics, Muslim States, and Counterterrorism Tensions Peter Henne, 2017-03-02 This book explains the reactions of Muslim states to the US Global War on Terror It combines cutting edge research on religion and politics and the study of political institutions to advance a novel explanation that will be of interest to those studying religion terrorism the Middle East and US foreign policy *Doomed to Repeat?* Sean Brawley, 2009-04-13 This collection of scholarly essays explores the role of history in terrorism studies and today s counterterrorism initiatives In *Doomed to Repeat* scholars policy makers and other practitioners explore how a better understanding of the past can help us combat terrorism in the future The first section establishes a broader context for discussion by examining the connections between history and Terrorism Studies The second section presents the insights of non historians who know the importance of historical perspective in

understanding current events Section Three provides case studies that explore the history of terrorism and politically motivated violence Section Four concludes by placing concerns about terrorism in regional and foreign policy context This collection helps us advance our understanding of terrorism beyond simplistic and dichotomist assertions about them and us Taken together these essays highlight the importance of analyzing rather than assuming

Pakistan Since Independence Stanley B. Sprague, 2020-11-12 This concise and balanced account details Pakistan's turbulent 73 year history of civil war military coups political assassinations wars with India cooperation with the U S during the Afghan Soviet war and events following 9 11 An unpredictable nuclear nation Pakistan has been variously described as the center of international terrorism the world's biggest nuclear weapons proliferator the most dangerous place in the world and some experts predict the most likely site of the world's first nuclear war

Storming the World Stage Stephen Tankel, 2014-01-16 Lashkar e Taiba is among the most powerful militants groups in South Asia and increasingly viewed as a global terrorist threat on par with al Qaeda Considered Pakistan's most powerful proxy against India the group gained public prominence after its deadly ten person suicide assault on Mumbai in November 2008 By the time the last Lashkar terrorist was dead after nearly 60 hours it appeared the world was facing a new menace Boasting transnational networks stretching across several continents there has been serious debate since 9 11 of whether Lashkar is an al Qaeda affiliate The deliberate targeting of Westerners and Jews during the Mumbai attacks raised questions about whether Lashkar was moving deeper into al Qaeda's orbit and perhaps on a trajectory to displace Osama bin Laden's network as the next major global jihadi threat Lashkar's expansion has serious security implications for India Pakistan Europe and the United States and its activities threaten to damage US Pakistan relations Despite growing calls for action Pakistan is yet to take any serious steps toward dismantling Lashkar for fear of drawing it further into the insurgency raging there and because of its continued utility against India More than a militant outfit Lashkar also controls a vast infrastructure that delivers necessary social services to the Pakistani populace making it all the more difficult to dismantle *Storming the World Stage* traces the evolution of Lashkar e Taiba over more than two decades to illustrate how the group grew so powerful and to assess the threat it poses to India the West and to Pakistan itself The first English language book ever written about Lashkar it draws on in depth field research including interviews with senior Lashkar leaders rank and file members and officials of the Pakistani security services some of who have helped nurture the group over the years

The Lessons of Mumbai Angel Rabasa, 2009 This study of the Mumbai India terrorist attack of November 2008 identifies the operational and tactical capabilities displayed by the terrorists and evaluates the response of the Indian security forces The authors draw out the implications of the incident for India Pakistan and the international community and derive lessons learned from the attack and from the Indian response Their goal is to develop findings that may help counterterrorism authorities in India and elsewhere to prepare for or counter future terrorist attacks

on urban centers Provided by publisher Pakistan: From the Rhetoric of Democracy to the Rise of Militancy Ravi Kalia, 2012-08-21 The essays in this volume address the central theme of Pakistan's enduring yet elusive quest for democracy. The book charts Pakistan's struggle from its very inception at least in the political rhetoric provided by both civilian and military leaders for democracy, liberalism, freedom of expression, inclusiveness of minorities, and even secularism. At the same time, it demonstrates how in practice the country has continued to drift towards increasingly brittle authoritarianism, religious extremism, and intolerance of minorities, both Muslim and non-Muslim. This chasm between animated political rhetoric and grim political reality has baffled the world as much as Pakistanis themselves. In this volume, scholars and practitioners of statecraft from around the world have sought to explain the dichotomy that exists between the rhetoric and the reality. Crucial areas such as Pakistan's troubled status as a theocracy, its relationship with the US, the position of women, and their quest for empowerment, the Mujahid Qaumi movement, the sharp class divide that has led to an elitist political culture, and finally an erudite discussion of the popular topic, Jinnah's vision of Pakistan, are the focus of this book. This volume will be of interest to scholars of history, political science, international relations, sociology, anthropology, and urban planning, policy makers, and think tanks, as well as the wider reading public curious about South Asia.

The Scorpion's Tail Zahid Hussain, 2010-11-16 A deeply reported account of the war against Islamic extremists in Pakistan and battles being fought in the remote tribal regions. The war in Afghanistan has raged on longer than any war in US history and far from suppressing the insurgency being waged by radical Islamic militants, it has led to stronger alliances among al Qaeda, the Taliban, and a host of once autonomous militant groups and has inspired a flood of new recruits. In addition to reclaiming control of substantial territory in Afghanistan, the militants have now taken the fight deep within Pakistan, threatening to totally destabilize that nuclear armed state and are launching attacks on the US homeland. Why has the insurgency been so irrepressible? Is this a war that can be won? Can we expect a wave of attacks within the United States more sophisticated than the attempted bombing in Times Square? Nothing can be understood about the prospects for the war and the threat to the US homeland without understanding how Pakistan has become the epicenter of the insurgency and why the rise of militant groups there has escalated out of control despite major offensives by the Pakistani military and an intensive secret US Predator drone war against them. Based on extensive reporting inside Pakistan's dangerous lawless regions and exclusive interviews with militant leaders as well as high level military and intelligence sources, Zahid Hussain, one of the most respected reporters working out of Pakistan, chronicles how and why the Islamic extremist groups based in Pakistan's remote tribal territories have greatly increased their power since the start of the war and unleashed a reign of terror on US forces in Afghanistan and on both the military and civilian population within Pakistan. He is the first to reveal how a loose constellation of tribal groups has now come together to form a distinctive Pakistani Taliban working closely with al Qaeda and the Afghan Taliban to launch increasingly sophisticated and deadly attacks on both sides of the Af-Pak border. He discloses how they

draw support and a steady flood of recruits from deeply entrenched support networks in major Pakistani cities and how they have recruited would be US attackers including Faisal Shahzad and Adnan Shukrijumah accused of plotting to bomb the New York City subway He is also the first to chronicle in detail the still unacknowledged US war carried out in Pakistan by remote Predator drones and reporting from the scenes of a number of drone missile strikes and interviewing a number of attempted suicide bombers he reveals the shocking extent of anti Americanism the strikes have stoked in Pakistan across the range of the population due to civilian deaths driving a new breed of highly educated professional and middle class Pakistanis into the militant groups His gripping and revelatory account is an urgent wake up call about the blowback effects of the US war in Afghanistan and the drone campaign in Pakistan about how volatile the situation in the Af Pak region has become and about the deeply troubling limitations of the current military strategy in ever gaining decisive ground against the insurgents
