Ivanović, Lakhmi C. Jain, 2013-12-05 Teaching and learning paradigms have attracted increased attention especially in the last decade Immense developments of different ICT technologies and services have paved the way for alternative but effective approaches in educational processes Many concepts of the agent technology such as intelligence autonomy and cooperation have had a direct positive impact on many of the requests imposed on modern e learning systems and educational processes This book presents the state of the art of e learning and tutoring systems and discusses their capabilities and benefits that stem from integrating software agents We hope that the presented work will be of a great use to our colleagues and researchers interested in the e learning and agent technology *The Chinese National Top Level Courses Project: Using Open Educational Resources to Promote Quality in Undergraduate Teaching* Hklev Stian, 2010

The Chinese National Top Level Courses Project: Using Open Educational Resources to Promote Quality in Undergraduate Teaching Stian Hå klev, 2011 Handbook of Research on Technologies for Improving the 21st Century Workforce: Tools for Lifelong Learning Wang, Victor C.X., 2012-10-31 As the 21st century has seen lifelong learning has become more important as many countries have emerged into learning societies With these learning societies adult and community education along with new technologies play a major role in shaping and reshaping their economic political and cultural realities Handbook of Research on Technologies for Improving the 21st Century Workforce Tools for Lifelong Learning addresses how technologies impact the combination of workforce education and adult learning This comprehensive collection of research from leading authorities and front line faculty seeks to equip adult learners employees with the right knowledge and skills to continue to contribute to the economy given the importance of the essential role of technologies **ECEL 2019 18th European**

Conference on e-Learning Rikke Ørngreen, Bente Meyer, Mie Buhl, 2019-11-07 **Piece to Text on the Monument and One: Letters with the International Body Managers** Kiyoun Kim, 2018-08-17 The aims of this book is clear and straightforward It was motivated to convert an inhumane or insipid experience with the various sources of global ranking

into the kind of humanly and cultural experience within our daily lifestyle Their outlook from presentation is masked with the number purely and perhaps through a myriad of complicated data or ranking information The concept or self identification within the experience or exposure would be less substantial or hard to get palpable My attempt to improve this aspect of contemporary practice certainly will fall short but you can sense in some paragraphs or titles I wrote this small piece of book in the end to take care of human integrity and stories for advancing the inherence and liveliness of interested actors or consumers despite all the wind heads from the turf of existing ranking sources

Open Data for Education Dmitry Mouromtsev, Mathieu d'Aquin, 2016-03-18 This volume comprises a collection of papers presented at an Open Data in Education Seminar and the LILE workshops during 2014 2015 In the first part of the book two chapters give different perspectives on the current use of linked and open data in education including the use of technology and the topics that are being covered The second part of the book focuses on the specific practical applications that are being put in place to exploit open and linked data in education today The goal of this book is to provide a snapshot of current activities and to share and disseminate the growing collective experience on open and linked data in education This volume brings together research results studies and practical endeavors from initiatives spread across several countries around the world These initiatives are laying the foundations of open and linked data in the education movement and leading the way through innovative applications
